DVP-S525D/S725D

SERVICE MANUAL

South African Model
Middle and Near East Model

Self Diagnosis Supported model

Photo: DVP-S725D

SPECIFICATIONS

CD/DVD player
Laser Semiconductor laser
Signal format system PAL/(NTSC)

Audio characteristics
Frequency response DVD (PCM 96 kHz): 2 Hz to 44 kHz (±1 dB)* (S525D)
DVD (PCM 96 kHz): 2 Hz to 44 kHz (±0.5 dB)* (S725D)
DVD (PCM 48 kHz): 2 Hz to 22 kHz (±0.5 dB)
CD: 2 Hz to 20 kHz (±0.5 dB)
Signal-to-noise ratio More than 110 dB (LINE OUT (AUDIO) connectors only) (S525D)
More than 110 dB (AUDIO OUT connector only) (S725D)
Harmonic distortion Less than 0.0025%
Dynamic range More than 100 dB (DVD)
More than 98 dB (CD)
Wow and flutter Less than detected value (±0.001% W PEAK)

Outputs and inputs

	Jack type	Output level	Load impedance
LINE OUT (AUDIO) (S525D)	Phono jacks	2 Vrms (at 50 kilohms)	Over 10 kilohms
AUIO OUT (S725D)	Phono jacks	2 Vrms (at 50 kilohms)	Over 10 kilohms
DIGITAL OUT (OPTICAL)	Optical output connector	–18 dBm	Wave length: 660 nm
DIGITAL OUT (COAXIAL)	Phono jack	0.5 Vp-p	75 ohms terminated
LINE OUT (VIDEO) (S525D)	Phono jacks	1.0 Vp-p	75 ohms, sync negative
VIDEO OUT (1, 2) (S725D)	Phono jacks	1.0 Vp-p	75 ohms, sync negative
S VIDEO OUT (S525D) S VIDEO OUT (1, 2) (S725D)	4-pin mini DIN	Y: 1.0 Vp-p C: 0.3 Vp-p (PAL) C: 0.286 Vp-p (NTSC)	75 ohms, sync negative 75 ohms terminated
COMPONENT VIDEO OUT (Y, CB/B-Y, CR/R-Y) (S725D)	phono jacks	Y: 1.0 Vp-p CB/B-Y, CR/R-Y: 0.7 Vp-p	75 ohms, sync negative 75 ohms
PHONES	Phone jack	12 mW	32 ohms
5.1CH OUTPUT	Phono jacks	2 Vrms (at 50 kilohms)	Over 10 kilohms

General
Power requirements 220 – 240 V AC, 50/60 Hz
Power consumption 17 W (S525D)
22 W (S725D)
Dimensions (approx.) 430 × 95 × 305 mm (w/h/d) incl. projecting parts
Mass (approx.) 3.4 kg (S525D)
4.0 kg (S725D)
Operating temperature 5°C to 35°C
Operating humidity 5% to 90%

CD/DVD PLAYER

SONY

MICROFILM

Supplied accessories
- Audio/Video connecting cord (1)
- S video cable (1)
- Remote commander (remote) RMT-D108P (1)
  (S525D)
- Remote commander (remote) RMT-D111P (1)
 (S725D)
- Size AA (R6) batteries (2)

DVP-S525D:
* The signals from LINE OUT (AUDIO) connectors and 5.1 ch L, R connectors are measured. When you play the PCM sound tracks with 96 kHz sampling frequency, the output signals from the DIGITAL OUT (OPTICAL, COAXIAL) are converted to 48 kHz (sampling frequency).

DVP-S725D:
* The signals from AUDIO OUT connectors and 5.1 ch L, R connectors are measured. When you play the PCM sound tracks with 96 kHz sampling frequency, the output signals from the DIGITAL OUT (OPTICAL, COAXIAL) are converted to 48 kHz (sampling frequency).

Design and specifications are subject to change without notice.

CAUTION : VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN. AVOID EXPOSURE TO BEAM.

ADVARSEL : SYNLIG OG USYNLIG LASERSTRÅLING VED ÅBNING. UNDGÅ UDSÆTTELSE FOR STRÅLING.

VORSICHT : SICHTBARE UND UNSICHTBARE LASERSTRAHLUNG WENN ABDECKUNG GEÖFFNET. NICHT DEM STRAHL AUSSETZEN.

VARO! : NÄKYVÄÄ JA NÄKYMÄTÖN AVATTAESSA OLET ALTTIINA LASERSÄTEILYLLE. ÄLÄ KATSO SÄTEESEEN.

VARNING : SYNLIG OCH OSYNLIG LASERSTRÅLNING NÄR DENNA DEL ÄR ÖPPNAD. STRÅLEN ÄR FARLIG.

ADVARSEL : SYNLIG OG USYNLIG LASERSTRÅLING NÅR DEKSEL ÅPNES. UNNGÅ EKSPONERING FOR STRÅLEN.

FIGYELEM : A BURKOLAT MEGBONTÁSAKOR LÁTHATÓ ÉS LÁTHATATLAN LÉZERSUGÁR LÉPHET KI A KÉSZÜLÉKBŐL. ÓVAKODJON A KÖZVETLEN LÉZERSUGÁRTÓL!

WARNING!!

WHEN SERVICING, DO NOT APPROACH THE LASER EXIT WITH THE EYE TOO CLOSELY. IN CASE IT IS NECESSARY TO CONFIRM LASER BEAM EMISSION, BE SURE TO OBSERVE FROM A DISTANCE OF MORE THAN 25 cm FROM THE SURFACE OF THE OBJECTIVE LENS ON THE OPTICAL PICK-UP BLOCK.

CAUTION:
The use of optical instrument with this product will increase eye hazard.

CAUTION
Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

SAFETY CHECK-OUT

After correcting the original service problem, perform the following safety checks before releasing the set to the customer:

1. Check the area of your repair for unsoldered or poorly-soldered connections. Check the entire board surface for solder splashes and bridges.

2. Check the interboard wiring to ensure that no wires are "pinched" or contact high-wattage resistors.

3. Look for unauthorized replacement parts, particularly transistors, that were installed during a previous repair. Point them out to the customer and recommend their replacement.

4. Look for parts which, though functioning, show obvious signs of deterioration. Point them out to the customer and recommend their replacement.

5. Check the B+ voltage to see it is at the values specified.

SAFETY-RELATED COMPONENT WARNING!!

COMPONENTS IDENTIFIED BY MARK ⚠ OR DOTTED LINE WITH MARK ⚠ ON THE SCHEMATIC DIAGRAMS AND IN THE PARTS LIST ARE CRITICAL TO SAFE OPERATION. REPLACE THESE COMPONENTS WITH SONY PARTS WHOSE PART NUMBERS APPEAR AS SHOWN IN THIS MANUAL OR IN SUPPLEMENTS PUBLISHED BY SONY.

2. NOTE ON REMOVE THE CASE

1) Remove seven screws. (See Fig. 1)
2) Open the side of case. (See Fig. 1)
3) Remove the case as lift straight. (See Fig. 1)
Fig. 1

3. DISC REMOVAL PROCEDURE (at POWER OFF)

1) Insert a tapering driver into the aperture of the unit bottom, and move the lever of chuck cam in the direction of the arrow Ⓐ. (See Fig. 2)
2) Draw out the tray in the direction of the arrow Ⓑ, and remove a disc. (See Fig. 2)
Fig. 2

4. HOW TO SERVICE MB-85 BOARD

1) Remove the case from the set. (Refer to 2-1)
2) Remove the MB-85 board. (Refer to 2-2)
3) Set the MB-85 board as shown in Fig. 3.
   Note: Do not disconnect wiring, except FMA-7/8/9.
Fig. 3

SECTION 1
GENERAL

This section is extracted from DVP-S725D instruction manual (3-866-153-21).

About This Manual

Conventions
- Instructions in this manual describe the controls on the player. You can also use the controls on the remote if they have the same or similar names as those on the player.
- The icons on the right are used in this manual:

Icon	Meaning
📻	Indicates that you can use only the remote to do the task.
💡	Indicates tips and hints for making the task easier.
DVD	Indicates the functions for DVD VIDEOs.
VIDEO CD	Indicates the functions for VIDEO CDs.
CD	Indicates the functions for Audio CDs.

This Player Can Play the Following Discs

	DVD VIDEOs	VIDEO CDs		Audio CDs	
Disc logo	**DVD** VIDEO	COMPACT DISC DIGITAL VIDEO		COMPACT DISC DIGITAL AUDIO TEXT	
Contents	Audio + Video	Audio + Video		Audio	
Disc size	12 cm	8 cm	12 cm	8 cm	12 cm	8 cm (CD single)
Play time	About 4 h (for single-sided DVD)/ about 8 h (for double-sided DVD)	About 80 min. (for single-sided DVD)/ about 160 min. (for double-sided DVD)	74 min.	20 min.	74 min.	20 min.

"DVD VIDEO" logo is a trademark.

When you play an NTSC disc, this player outputs the video signal in the NTSC system only. In this case, if your TV is a PAL system mode, the picture becomes noisy.

Region code of DVDs you can play on this unit
Your DVD player has a region code printed on the back of the unit and will only play DVDs that are labeled with identical region codes.
DVDs labeled [ALL] will be also played on this unit.
If you try to play any other DVD, the message "Playing this disc prohibited by area limits." will appear on the TV screen.
Depending on the DVD, no region code indication may be labeled even though playing the DVD is prohibited by the area limits.

Region code

Note on playback operations of DVDs and VIDEO CDs
Some playback operations of DVDs and VIDEO CDs may be intentionally fixed by software producers. Since this player plays DVDs and VIDEO CDs according to the disc contents the software producers designed, some playback features may not be available. Also refer to the instructions supplied with the DVDs or VIDEO CDs.

4

Terms for discs

- **Title**
  The longest sections of a picture or a music piece on a DVD; a movie, etc., for a picture piece on a video software; or an album, etc., for a music piece on an audio software. Each title is assigned a title number enabling you to locate the title you want.

- **Chapter**
  Sections of a picture or a music piece that are smaller than titles. A title is composed of several chapters. Each chapter is assigned a chapter number enabling you to locate the chapter you want. Depending on the disc, no chapters may be recorded.

- **Track**
  Sections of a picture or a music piece on a VIDEO CD or a CD. Each track is assigned a track number enabling you to locate the track you want.

DVD structure	Disc
	Title
	Chapter

VIDEO CD or CD structure	Disc
	Track
	Index
- **Index (CD) / Video Index (VIDEO CD)**
  A number that divides a track into sections to easily locate the point you want on a VIDEO CD or a CD. Depending on the disc, no indexes may be recorded.

- **Scene**
  On a VIDEO CD with PBC functions, the menu screens, moving pictures and still pictures are divided into sections called "scenes." Each scene is assigned a scene number enabling you to locate the scene you want.

Note on PBC (Playback Control) (VIDEO CDs)
This player conforms to Ver. 1.1 and Ver. 2.0 of VIDEO CD standards. You can enjoy two kinds of playback according to the disc type.

Disc type	You can
VIDEO CDs without PBC functions (Ver. 1.1 discs)	Enjoy video playback (moving pictures) as well as music.
VIDEO CDs with PBC functions (Ver. 2.0 discs)	Play interactive software using menu screens displayed on the TV screen (PBC Playback), in addition to the video playback functions of Ver. 1.1 discs. Moreover, you can play high-resolution still pictures, if they are included on the disc.

Discs that the player cannot play
The player cannot play discs other than the ones listed in the table on page 4. CD-R, CD-ROMs including PHOTO CDs, data sections in CD-EXTRAs, DVD-ROMs etc., cannot be played.

When playing DTS-encoded CDs, excessive noise will be heard from the analog stereo outputs. To avoid possible damage to the audio system, the consumer should take proper precautions when the analog stereo outputs of the DVD player are connected to an amplification system. To enjoy DTS Digital Surround™ playback, an external 5.1-channel DTS Digital Surround™ decoder system must be connected to the digital output of the DVD player.

This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

* "DTS" is a trademark of Digital Theater Systems, Inc.

5

Precautions

On safety
- Caution – The use of optical instruments with this product will increase eye hazard.
- Should any solid object or liquid fall into the cabinet, unplug the player and have it checked by qualified personnel before operating it any further.

On power sources
- The player is not disconnected from the AC power source (mains) as long as it is connected to the wall outlet, even if the player itself has been turned off.
- If you are not going to use the player for a long time, be sure to disconnect the player from the wall outlet. To disconnect the AC power cord (mains lead), grasp the plug itself; never pull the cord.
- Should the AC power cord (mains lead) need to be changed, have it done at a qualified service shop only.

On placement
- Place the player in a location with adequate ventilation to prevent heat build-up in the player.
- Do not place the player on a soft surface such as a rug that might block the ventilation holes on the bottom.
- Do not place the player in a location near heat sources, or in a place subject to direct sunlight, excessive dust or mechanical shock.

On operation
- If the player is brought directly from a cold to a warm location, or is placed in a very damp room, moisture may condense on the lenses inside the player. Should this occur, the player may not operate properly. In this case, remove the disc and leave the player turned on for about half an hour until the moisture evaporates.

On adjusting volume
- Do not turn up the volume while listening to a portion with very low level inputs or no audio signals. If you do, the speakers may be damaged when a peak level portion is played.

On cleaning
- Clean the cabinet, panel and controls with a soft cloth slightly moistened with a mild detergent solution. Do not use any type of abrasive pad, scouring powder or solvent such as alcohol or benzine.

If you have any questions or problems concerning your player, please consult your nearest Sony dealer.

IMPORTANT NOTICE
Caution: The enclosed DVD player is capable of holding a still video image or On screen display image on your television screen indefinitely. If you leave the still video image or On screen display image displayed on your TV for an extended period of time you risk permanent damage to your television screen. Projection televisions are very susceptible.

Notes on Discs

On handling discs
- To keep the disc clean, handle the disc by its edge. Do not touch the surface.
- Do not stick paper or tape on the disc.
- If there is glue (or a similar substance) on the disc, remove the glue completely before using the disc.

- Do not expose the disc to direct sunlight or heat sources such as hot air ducts, or leave it in a car parked in direct sunlight as there can be considerable rise in temperature inside the car.
- After playing, store the disc in its case.

On cleaning
- Before playing, clean the disc with a cleaning cloth. Wipe the disc from the center out.

- Do not use solvents such as benzine, thinner, commercially available cleaners or anti-static spray intended for vinyl LPs.

6

Getting Started

This section describes how to hook up the CD/DVD player to a TV (with audio/video input jacks) and/or an AV receiver (amplifier). You cannot connect this player to a TV which does not have a video input connector. Be sure to turn off the power of each component before making the connections.

Unpacking

Check that you have the following items:
- Audio/video connecting cord (1)
- S video cord (1)
- Remote commander (remote) RMT-D111P (1)
- R6 (size AA) batteries (2)

Inserting batteries into the remote
You can control the player using the supplied remote. Insert two R6 (size AA) batteries by matching the + and – on the batteries. When using the remote, point it at the remote sensor ⊠ on the player.
💡 You can control TVs and AV receivers using the supplied remote.
See page 63.

Notes
- Do not leave the remote in an extremely hot or humid place.
- Do not drop any foreign object into the remote casing, particularly when replacing the batteries.
- Do not expose the remote sensor to direct sunlight or lighting apparatuses. Doing so may cause a malfunction.
- If you will not use the remote for an extended period of time, remove the batteries to avoid possible damage from battery leakage and corrosion.

Getting Started

7

TV Hookups

This connection is for listening to the sound through TV speakers (2ch – L,R). Refer to the instructions supplied with the component to be connected. You cannot connect this player to a TV without an EURO AV (SCART) connector or a video input connector.

Required cords

EURO-AV (SCART) connecting cord (not supplied) (2)
Be sure to make connections firmly to avoid hum and noise.
Refer to the instructions supplied with the TV to be connected.

Notes
* When you set "EURO AV OUT" to "S VIDEO" or "RGB" under "CUSTOM SETUP" in the setup display, use the EURO AV (SCART) connecting cord conformed to each signal.
* When you connect using the EURO-AV connecting cord, confirm that the TV corresponds to S VIDEO or RGB. Refer to the instructions supplied with the TV to be connected.

If your TV has two EURO AV (SCART) connectors

CD/DVD player

VCR

TV

To EURO AV 1 (SCART) Input

To EURO AV 2 (SCART) Input

If your TV has no EURO AV (SCART) connectors
You can connect the player to a TV (with audio/video input jacks) using the supplied audio/video connecting cord. If your TV has an S video input connector, connect the component via the S VIDEO OUT connector using the S video cord (supplied) instead of the video connecting cord. You will get a better picture. When connecting the cords, be sure to match the color-coded cord to the appropriate jacks on the components: Yellow (video) to Yellow, Red (right) to Red and White (left) to White.

Audio/Video connecting cord (supplied)

9

TV Hookups

If you connect the player to a monitor or projector having component video input connectors that conform to output signals from the COMPONENT VIDEO OUT (Y, CB/B-Y, CR/R-Y) connectors on the player

Connect the component via the COMPONENT VIDEO OUT connectors using three video connecting cords (not supplied) of the same kind. You will get a better picture.

In this case, set "EURO AV OUT" in "CUSTOM SETUP" to "VIDEO" or "S VIDEO" In the setup display, and set "COMPONENT OUT" to "ON." (page 54)

COMPONENT VIDEO OUT   COMPONENT VIDEO IN

Notes
* When you set "EURO AV OUT" in "CUSTOM SETUP" to "RGB", you cannot select the item "COMPONENT OUT" in "CUSTOM SETUP."
* Refer to the instructions supplied with the component to be connected.
* Do not connect this player to a video deck. If you view the pictures on your TV after making the connections shown below, a picture noise may appear.

VCR   TV

CD/DVD player   Connect directly

* Depending on the TV or receiver (amplifier), sound distortion may occur because the audio output level is high. In this case, set "AUDIO ATT" in "AUDIO SETUP" to "ON" in the setup display. For details, see page 58.
* If you cannot view the pictures from a VCR through this player which is connected to a TV with RGB, set ⊖① to ⊖(Audio/Video) on your TV. When you select ⊖(RGB), the TV cannot receive the signal from the VCR.
* If you want to enjoy the picture with RGB signal via EURO AV 1 (RGB) connector, set "COMPONENT OUT" in the "CUSTOM SETUP" to "OFF," then set "EURO AV OUT" to "RGB" in the setup display. For details, see page 54.
* If you want to use SmartLink function of a VCR, connect the VCR to a TV with the connector conformed to SmartLink function and connect the CD/DVD player to the TV with another connector.
* When you connect the player to a monitor or projector via only the COMPONENT VIDEO OUT connectors, do not select "OFF" in "COMPONENT OUT" under "CUSTOM SETUP." If you select "OFF" in this case, the picture may not appear.

10

Setups for the player
Some setups are necessary for the player depending on the TV or other components to be connected.
Use the setup display to change the various settings.
For details on using the setup display, see page 49.

* To connect the player to a wide-screen TV
In the setup display, set "TV TYPE" in "SCREEN SETUP" to "16:9" (default setting). For details, see page 53.
* To connect the player to a normal TV
In the setup display, set "TV TYPE" in "SCREEN SETUP" to "4:3 LETTER BOX" or "4:3 PAN SCAN." For details, see page 53.
* To connect the player to a TV or VCR via EURO AV connector that conforms to the S video signals or RGB signals
In the setup display, set "EURO AV OUT" in "CUSTOM SETUP" to "S VIDEO" or "RGB." For details, see page 54.
* To connect the player to a monitor or projector with component video input connectors that conform to output signals from the COMPONENT VIDEO OUT (Y, CB/B-Y, CR/R-Y) connectors on the player
In the setup display, set "COMPONENT OUT" in "CUSTOM SETUP" to "ON." This is default setting. For details, see page 54.

This player conforms to the PAL color system. When you play a disc recorded in the NTSC color system, the player outputs the video signal or the setup display etc. in the NTSC color system and the picture may not appear on the TV screen. In this case, open the disc tray and remove the disc.
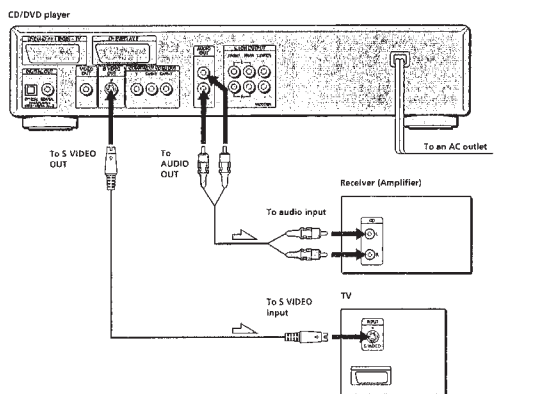

11

Receiver (Amplifier) Hookups

This connection is for listening to the sound through speakers connected to a receiver (amplifier such as an integrated stereo amplifier, a receiver having a built-in Dolby Pro Logic decoder, etc.). Refer to the instructions supplied with the component to be connected.

You can enjoy 5.1 channel surround sound by connecting a receiver (amplifier) with 5.1 channel inputs. See page 36.

⎯✲ You can enjoy surround when connecting front speakers only
You can use 3D sound imaging to create virtual rear speakers from the sound of the front speakers (L, R) without using actual rear speakers (Virtual Enhanced Surround). For details, see page 36.

Required cords

Audio connecting cord (not supplied) (1)
S video cord (supplied) (1)
When connecting the cords, be sure to match the color-coded cord to the appropriate jacks on the components: Red (right) to Red and White (left) to White. Be sure to make connections firmly to avoid hum and noise.

⎯➤ : Signal flow

Note
You cannot enjoy the picture with S video signal if your TV is not conformed to the S video signal. When your TV does not have S VIDEO input, connect the component via the VIDEO INPUT connector using the video connecting cord (not supplied) instead of the S video cord. For details, see page 9.
Refer to the instructions supplied with your TV.
12

If you have a digital component such as a receiver (amplifier) with a digital connector, DAT or MD

Connect the component via the DIGITAL OUT OPTICAL or COAXIAL connector using an optical or coaxial digital connecting cord (not supplied).
When you play a DVD, set "DIGITAL OUT" in "AUDIO SETUP" to "ON" and then set "DOLBY DIGITAL" to "D-PCM", "MPEG" to "PCM" and "DTS" to "OFF" in the setup display. (page 59)

■ When using an optical digital connecting cord

■ When using a coaxial digital connecting cord

Coaxial digital connecting cord
(not supplied)

Receiver (Amplifier) with a digital connector, MD deck, DAT deck, etc.
CD/DVD player
DIGITAL OUT   DIGITAL IN

Notes
• Refer to the instructions supplied with the component to be connected.
• You cannot make digital audio recordings of discs recorded in multi-channel surround format directly using an MD deck or DAT deck.

When you make the connections above, do not set "DOLBY DIGITAL" to "DOLBY DIGITAL", "MPEG" to "MPEG" and "DTS" to "ON." If you do, a loud noise will suddenly come out from the speakers, affecting your ears or causing the speakers to be damaged.
If you have an audio component with a built-in DTS decoder, Dolby Digital decoder or MPEG decoder

Connect the component via the DIGITAL OUT OPTICAL or COAXIAL connector using an optical or coaxial digital connecting cord (not supplied).

■ When you play a DVD or CD that are recorded in DTS format
Set "DIGITAL OUT" in "AUDIO SETUP" to "ON" and then set "DTS" to "ON" in the setup display. (page 59)

■ When you play a DVD that is recorded in Dolby Digital format
Set "DIGITAL OUT" in "AUDIO SETUP" to "ON" and then set "DOLBY DIGITAL" to "DOLBY DIGITAL" in the setup display. (page 59)

■ When you play a DVD that is recorded in MPEG format
Set "DIGITAL OUT" in "AUDIO SETUP" to "ON" and then set "MPEG" to "MPEG" in the setup display. (page 59)

CD/DVD player

Optical or coaxial digital connecting cord

Audio component with a built in DTS decoder, DOLBY DIGITAL decoder or MPEG decoder

Speakers

Notes
• Refer to the instructions supplied with the component to be connected.
• When you do not connect an audio component with a built in DTS decoder, do not set "DTS" to "ON."
• When you do not connect an audio component with a built in DOLBY DIGITAL decoder, do not set "DOLBY DIGITAL" to "DOLBY DIGITAL."
• When you do not connect an audio component with a built in MPEG decoder, do not set "MPEG" to "MPEG."

Setups for the player

Some setups are necessary for the player depending on the components to be connected.
Use the setup display to change the various settings.
For details on using the setup display, see page 49.

• To listen to the sound through speakers connected to a receiver (amplifier) having a digital connector or to output the sound to a digital component such as a DAT or MD deck
When you play a DVD, set "DIGITAL OUT" in "AUDIO SETUP" to "ON" and then set "DOLBY DIGITAL" to "D-PCM," "MPEG" to "PCM" and "DTS" to "OFF" in the setup display (page 59). These are the default settings.

13

5.1 Channel Surround Hookups

Some DVDs have a sound track with up to 5.1 channels recorded in Dolby* Digital (AC-3) or MPEG AUDIO format. Using a receiver (amplifier) having 5.1 channel inputs and the 5 (+1) speakers, you can enjoy more real audio presence in the comfort of your own home.
"5 channel" stands for the 2 front speakers (Left and Right), 2 rear speakers (Left and Right) and 1 center speaker. The "0.1 channel" (+1) stands for the subwoofer which outputs the bass.
Even if you have fewer than 5 (+1) speakers, the player distributes the output signal to the speakers appropriately. This player has VIRTUAL 3D SURROUND mode.
You can use the 3D sound imaging to shift the sound of the rear speakers away from the actual speaker position (VIRTUAL REAR SHIFT) or to create 3 sets of virtual rear speakers from 1 set of actual rear speakers (VIRTUAL MULTI REAR). For details on the VIRTUAL 3D SURROUND mode, see page 36.

Note
When a DVD has a sound track with 7.1 channels recorded in MPEG AUDIO format, the output audio signals are mixed down to 5.1 channels.

Speaker placement

For the best possible surround sound, we recommend the following conditions.
• Use higher performance speakers.
• Use rear and center speakers that match your front speakers in size and performance.
• All speakers should be the same distance from the listening position.
• Place the subwoofer between the front (L, R) speakers if possible.
Note
Do not place the center or rear speakers farther away from the listening position than the front speakers.
Required cords

Audio cords (not supplied)
Two for the 5.1CH OUTPUT FRONT and REAR jacks

White (L) ⊏═▭ ▭═⊐ White (L)
Red (R) ⊏═▭ ▭═⊐ Red (R)
Monaural audio cords (not supplied)
Two for the 5.1CH OUTPUT CENTER and WOOFER jacks

Black ⊏═▭ ▭═⊐ Black

S video cord (supplied)
One for the S VIDEO OUT jacks

▭━━━━━▭

14

Notes
• Do not connect the power cord to an AC outlet or press the POWER switch before completing all connections.
• The cord connectors should be fully inserted into the jacks. Loose connection may cause hum and noise.
• Jacks and plugs of the connecting cords are color-coded as follows:
  Red jacks and plugs: Right audio channel
  White jacks and plugs: Left audio channel
  You can use either red or white cables to connect the center speaker and subwoofer.
• When you connect the component via the DIGITAL OUT OPTICAL or COAXIAL connector using an optical or coaxial digital connecting cord (not supplied), see page 13.
Setups for the player

Some setups are necessary for the player depending on the components to be connected.
Use the setup display or the Control Menu display to change the various settings.
For details on using the setup display, see page 49.
For details on enjoying Digital Cinema Sound, see page 36.

• To enjoy Dolby Digital or MPEG AUDIO surround sound by connecting the player to a receiver (amplifier) with 5.1 inputs
Set each speaker position or distance, etc. See page 61.

Selecting the Language for On-Screen Display

You can select the language for the setup display, the Control Menu display or the messages displayed on the screen. Default setting is "ENGLISH."

SET UP

ENTER

←/↑/↓/→
1 Press SET UP and select "LANGUAGE SETUP" using ↑/↓, and then press ENTER.

LANGUAGE SETUP
OSD: ENGLISH

To set, press ⊞⊞⊞, then ⊞⊞⊞.
To quit, press ⊞⊞⊞.

2 Select "OSD" using ↑/↓, then press → or ENTER.

LANGUAGE SETUP
ENGLISH
FRANÇAIS
DEUTSCH
ITALIANO
ESPAÑOL
NEDERLANDS
DANSK

To set, press ⊞⊞⊞, then ⊞⊞⊞.
To quit, press ⊞⊞⊞.

3 Select "FRANÇAIS" using ↑/↓, then press ENTER.

CHOIX DE LA LANGUE
ECRANS: FRANÇAIS

Pour le réglage, appuyez sur ⊞⊞⊞, puis sur ⊞⊞⊞. Pour quitter, appuyez sur ⊞⊞⊞.

To cancel using the setup display on the way
Press SET UP.

Note
The languages you can select are the ones displayed in step 2.
For details, see page 52.

16

Playing Discs

This chapter describes how to play a DVD/CD/VIDEO CD.

This player conforms to the PAL color system. When you play a disc recorded in the NTSC color system, the player outputs the video signal or the setup display etc. in the NTSC color system and the picture may not appear on the TV screen. In this case, open the disc tray and remove the disc.

Playing Discs (DVD) (VIDEO) (CD)

Depending on the DVD or VIDEO CD, some operations may be different or restricted. Refer to the instructions supplied with your disc.

I/⏻ (POWER)

Connect headphones.

Adjust the headphone volume.
1 Make settings on your TV.
Turn on the TV and select the video input so that you can view the pictures from this player.

When using a receiver (amplifier)
Turn on the receiver (amplifier) and select the appropriate position so that you can listen to the sound from this player.

2 Press I/⏻ (POWER) to turn on the player.
The indicator (red) above the I/⏻ (POWER) button changes to green and the front panel display lights up.

3 Press ⏏, and place the disc on the disc tray.

With the playback
side facing down
4 Press ▷.
The disc tray closes, and the player starts playback (Continuous Play). Adjust the volume on the TV or the receiver (amplifier).

After following Step 4
■When playing a DVD
A DVD menu or title menu may appear on the TV screen (see page 21).
■When playing a VIDEO CD
The menu screen may appear on the TV screen depending on the VIDEO CD. You can play the disc interactively, following the instructions on the menu screen. (PBC Playback, see page 22.)
17

You can turn on the player using the remote
Press I/⏻ (POWER) when the indicator above the I/⏻ (POWER) button on the front panel is lit in red.

Notes
• If you leave the player or the remote in pause or stop mode for 15 minutes, the screen saver image appears automatically. To make the screen saver image go away, press ▷. (If you want to set the screen saver function to off, see page 53.)
• The indicator above the I/⏻ (POWER) button lights up in red when the power is turned off.
• If you don't operate the player or the remote for more than 30 minutes when a disc is not being played, the power is automatically turned off. (Auto Power Off function)
I/⏻ (POWER)   ⏏ |◄◄/►►|

▷ II ■

⏏   I/⏻ (POWER)

|◄◄/►►| ■
▷
II

To	Operation
Stop	Press ■.
Pause	Press II.
Resume play after pause	Press II or ▷.
Go to the next chapter, track or scene in continuous play mode	On the player: Turn |◄◄ /►►| clockwise to select the chapter and then press |◄◄ / ►►|. On the remote: Press ►►|.
Go back to the preceding chapter, track or scene in continuous play mode	On the player: Turn |◄◄ /►►| counterclockwise to select the chapter and then press |◄◄ /►►|. On the remote: Press |◄◄.
Stop play and remove the disc	Press ⏏.

You can play discs in various modes such as Program Play using the on-screen menu (Control Menu). For operations of Control Menu, see page 25.

18

Playing at Various Speeds/Frame by Frame (DVD) (VIDEO) (CD)

Using the click shuttle and the JOG button/indicator, you can play back a DVD/CD/VIDEO CD at various speeds or frame by frame. Each time you press JOG, it changes between shuttle mode and jog mode.

JOG

Click shuttle

JOG

Click shuttle

To change the playback speed (Shuttle mode)
Turn the click shuttle. The playback speed changes depending on the turning direction and angle as follows:

When you play back a DVD
2►► Fast forward (about 30 times the normal speed)
↕
1►► Fast forward (about 10 times the normal speed)
↕
>2► (about twice the normal speed)
↕
►(Normal speed)
↕
1I► Slow (playback direction)
↕
2I► Slow (playback direction
↕ – slower than "1I► ")
II Pause
↕
2◄I Slow (opposite direction – slower than "1◄I ")
↕
1◄I Slow (opposite direction)
↕
>2◄ (about twice the normal speed)
↕
1◄◄ Fast rewind (about 10 times the normal speed)
↕
2◄◄ Fast rewind (about 30 times the normal speed)

If you turn the click shuttle quickly, the playback speed goes to 2►►/2◄◄ at once.

When you play back a CD/VIDEO CD
2►► Fast forward (Faster than "1►►")
↕
1►► Fast forward
↕
►► (Normal speed)
↕
1I► Slow (playback direction)*
↕
2I► Slow (playback direction
↕ – slower than "1I► ")*
II Pause
↕
1◄◄ Fast rewind
↕
2◄◄ Fast rewind(Faster than "1◄◄")

* VIDEO CD Only

If you turn the click shuttle quickly, the playback speed goes to 2►►/2◄◄ at once.

To return to continuous play
Press ▷.

To search for the picture using the button on the remote
Keep pressing ⊟ or ⊞. The playback speed is same as 1◄◄ or 1►► when using the click shuttle.

Note
Depending on the DVD/VIDEO CD, you may not be able to do some of the operations described.

19

1-4

To play the disc frame by frame changing the playback speed (Jog mode)

DVD **VIDEO CD**

1 Press JOG.
JOG lights up during jog mode. When you press JOG on the player, it pauses.

2 Turn the click shuttle.
Depending on the turning speed, the playback goes to frame-by-frame in the direction that the click shuttle is turned. If you turn the click shuttle with constant speed for a while, the playback speed goes to slow or normal.

To return to Continuous Play
Press ▷.

Notes
* The JOG indicator shows the mode of the corresponding click shuttle. For example, when the JOG indicator on the remote is not lit, the remote click shuttle will remain in the shuttle mode even if the indicator on the player is lit.
* If you don't operate the click shuttle for about 20 seconds after pressing JOG, it returns to shuttle mode on the remote. On the player, it stays in jog mode.

Resuming Playback from the Point Where You Stopped the Disc (Resume Play) **DVD** **VIDEO CD** **CD**

The player stores the point where you stopped the disc and if "RESUME" appears on the front panel display. You can resume playback from that point.
As long as you do not open the disc tray, Resume Play is available even if you turn the power off.
1 While playing a disc, press ■ to stop playback.
"RESUME" appears in the front panel display and "When playing next time, disc restarts from point you stopped." appears on the TV screen.
If "RESUME" does not appear, Resume Play is not available.

2 Press ▷.
The player starts playback from the point where you stopped the disc in Step 1.

☼ **To play from the beginning of the disc**
When the playing time appears on the front panel display before you start playing, press ■ to reset the playing time, then press ▷.

Notes
* Resume Play may not be available depending on the DVD.
* Resume Play is not available in Shuffle or Program Play mode.
* Depending on where you stopped the disc, the player may resume playback from a different point.
* The point where you stopped playing is cleared when:
  – you open or close the disc tray
  – you disconnect the AC power cord
  – you change the play mode
  – you start playback after selecting a title, chapter or track
  – you change the settings of "OSD," "DVD MENU," "AUDIO" or "SUBTITLE" in "LANGUAGE SETUP" in the setup display and "AUDIO" or "SUBTITLE" in the Control Menu display
  – you change the settings of "TV TYPE" in "SCREEN SETUP" in the setup display
  – you change the settings of "PARENTAL CONTROL" in "CUSTOM SETUP" in the setup display

Using the Menu for Each DVD **DVD**

Using the title menu

A DVD is divided into long sections of a picture or a music piece called "titles." When you play a DVD which contains several titles, you can select the title you want using the title menu.
1 Press TITLE.
The title menu appears on the TV screen. The contents of the menu vary from disc to disc.

2 Press ←/↑/↓/→ to select the title you want to play.
Depending on the disc, you can use the number buttons to select the title.

3 Press ENTER.
The player starts playing the selected title.

Notes
* Depending on the DVD, you may not be able to select the title.
* Depending on the DVD, a "title menu" may simply be called a "menu" or "title " in the instructions supplied with the disc. "Press ENTER." may also be expressed as "Press SELECT."

Using the DVD menu

Some DVDs allow you to select the disc contents using the menu. When you play these DVDs, you can select the language for the subtitles, the language for the sound, etc., using the DVD menu.

1 Press DVD MENU.
The DVD menu appears on the TV screen. The contents of the menu vary from disc to disc.

2 Press ←/↑/↓/→ to select the item you want to change.
Depending on the disc, you can use the number buttons to select the item.

3 To change other items, repeat Step 2.

4 Press ENTER.

☼ **If you want to select the language for the DVD menu**
Change the setting using "LANGUAGE SETUP" in the setup display. For details, see page 52.

Note
Depending on the DVD, a "DVD menu" may simply be called a "menu" in the instructions supplied with the disc.

Playing VIDEO CDs with PBC Functions (PBC Playback) **VIDEO CD**

When playing VIDEO CDs with PBC functions (Ver. 2.0 discs), you can enjoy simple interactive operations, operations with search functions, etc.
PBC Playback allows you to play VIDEO CDs interactively, following the menu screen on the TV screen. On this player, you can use the number buttons, ENTER, I◄◄, ►►I, ↑/↓ and ↺(RETURN) during PBC Playback.
1 Start playing a VIDEO CD with PBC functions, following Steps 1 to 4 in "Playing Discs" on page 17.

2 Select the item number you want.
On the player
Press ↑/↓ to select the item number.
On the remote
Press the number button of the item you want.

3 Press ENTER.

4 Follow the instructions on the menu screen for interactive operations.
Refer to the instructions supplied with the disc, as the operating procedure may differ according to the VIDEO CD.

Going back to the menu screen
Press ↺, I◄◄, or ►►I.

☼ **When playing VIDEO CDs with PBC functions**
PBC playback starts automatically.

☼ **To cancel PBC playback of a VIDEO CD with PBC functions and play the disc in Continuous Play mode**
There are two ways.
* Before you start playing, select the track you want using I◄◄ or ►►I, then press ENTER or ▷.
* Before you start playing, select the track number using the number buttons on the remote, then press ENTER or ▷. "Play without PBC" appears on the TV screen and the player starts Continuous Play. You cannot play still pictures such as a menu screen.
To return to PBC playback, press ■ twice then press ▷.

Note
Depending on the VIDEO CD, "Press ENTER" in Step 3 may be expressed as "Press SELECT" in the instructions supplied with the disc.

Using the Front Panel Display **i** **DVD** **VIDEO CD** **CD**

You can check information about the disc, such as the total number of the titles or the tracks or remaining time, using the front panel display.

When playing back a DVD **DVD**

Display information while playing the disc

Disc type | Current play mode | Current title number | Current surround format | Playing status | Lights up when you can change the angle | Current chapter number | Playing time

Checking the remaining time
Press TIME/TEXT.
Each time you press TIME/TEXT while playing the disc, the display changes as shown in the following chart.

20　　　21　　　22　　　23

Press TIME/TEXT

Note
While you are doing Shuffle Play, Program Play, or PBC playback, the playing time of the disc and the remaining time of the disc are not displayed.

24

Using Various Functions with the Control Menu

This chapter describes how to play discs in various modes and how to use the convenient features of the on-screen menu (Control Menu).

Using the Control Menu Display

Using the Control Menu display, you can select the start point, label a disc, change the angles, adjust the picture, set for Digital Cinema Sound, etc.
The items are different depending on the kind of disc.
For details on each Control Menu display item, see pages 28 to 48.

Note
Some Control Menu display items require operations other than selecting the setting. For details on these items, see the relevant pages.

To cancel using the Control Menu display on the way
Press ⟲RETURN.

To display other items
Each time you press DISPLAY, the Control Menu display changes as follows:

Control Menu display 1
↓
Control Menu display 2
(The items except the first three items from the top are changed to other items.)
↓
ADVANCED display (see page 43)
↓
Control Menu display off

✧ You can display some items using the remote
Some items can be displayed by pressing the button of the remote. In this case, only the item you selected is displayed. For the item and operations using the remote, see the pages of each item.

26

Control Menu Item List

TITLE (DVD only) (page 28)

CHAPTER (DVD only) (page 28)

TRACK (VIDEO CD/CD only) (page 28)

INDEX (VIDEO CD/CD only) (page 28)

SCENE (VIDEO CD during PBC playback only) (page 28)
You can search by selecting the title/chapter/track/index/scene.

TIME/TEXT (page 29, 30, 31)

TIME/MEMO (page 29, 30, 31)
You can check the playing time and remaining time of the current title/chapter/track and the total remaining time of the disc.
You can search by inputting the time code.
You can check the DVD TEXT or CD TEXT of the disc on the TV screen and the front panel display. When the disc is a VIDEO CD or the DVD TEXT or CD TEXT is not recorded on the disc, you can label the disc as a Disc Memo and check it.

AUDIO (page 33)
With DVDs recorded with multilingual sounds, you can select the language you want while playing the DVD. With multiplex CDs or VIDEO CDs, you can select the sound from the right or left channel and listen to the sound of the selected channel through both the right and left speakers.

SUBTITLE (DVD only) (page 34)
With DVDs on which multilingual subtitles are recorded, you can change the subtitle language whenever you want while playing the DVD, and turn it on or off whenever you want.

ANGLE (DVD only) (page 35)
With DVDs on which various angles (multi-angles) are recorded, you can change the angles on the scene for which multi-angles are recorded.

VIRTUAL SURROUND (page 36)
Select the mode to enjoy multi-channel surround sound such as Dolby Digital and MPEG.
Even if you connect only front speakers, Virtual Enhanced Surround (VES) lets you enjoy 3D sound by using 3D sound imaging to create virtual rear speakers from the sound of the front speakers (L, R) without using actual rear speakers.

When you connect 2 front speakers and 2 rear speakers, you can use the 3D sound imaging to shift the sound of the rear speakers away from the actual speaker position (VIRTUAL REAR SHIFT) or to create 3 sets of virtual rear speakers from 1 set of actual rear speakers (VIRTUAL MULTI REAR).
You can feel the more effective 3D sound when you connect a receiver (amplifier) with 5.1 channel inputs, 2 front speakers, 2 rear speakers, 1 center speaker and 1 subwoofer.

PROGRAM (page 38)
You can play the contents of the disc in the order you want by arranging the order of the titles, chapters or tracks on the disc to create your own program.

SHUFFLE (page 40)
You can have the player "shuffle" titles, chapters or tracks and play them in a random order. The playing order may differ from the previous "shuffling."

REPEAT (page 41)
You can play all the titles/tracks on a disc or a single title/chapter/track repeatedly.

A-B REPEAT (page 41)
You can play a specific portion of a title, chapter, or track repeatedly.

ADVANCED (DVD only) (page 43)
You can check the play information about the bit rate, bit rate history or the position where the disc is played (layer).

DNR (DVD/VIDEO CD only) (page 45)
You can make the picture clearer by reducing the picture noise.

VIDEO EQ (DVD/VIDEO CD only) (page 45)
You can adjust the video output of the DVD or VIDEO CD from the player, not from the TV, to obtain the picture quality you want.

ANGLE VIEWER (DVD only) (page 47)
With DVDs on which various angles (multi-angles) for a scene are recorded, you can display all the angles recorded on the disc on the same screen, and start playback in continuous mode at the chosen angle directly.

27

Control Menu Item List

[STROBE PLAYBACK] (DVD/VIDEO CD only) (page 47)
You can display 9 consecutive sections of the disc on the screen. In this case, the sections show still images.

[TITLE VIEWER] (DVD only) (page 48)

[CHAPTER VIEWER] (DVD only) (page 48)

[TRACK VIEWER] (VIDEO CD only) (page 48)
You can check the titles, chapters and tracks of the disc on the screen divided in 9 sections, and start playback from the chosen title, chapter or track.

[BOOKMARK] (DVD/VIDEO CD only) (page 48)
You can have the player store specific portions of the disc in memory and play them immediately whenever you want without the need to search.

Searching for the Title/Chapter/Track/Index/Scene

[i] DVD VIDEO CD CD

You can search by selecting the title/chapter/track/index/scene.
Select "TITLE," " CHAPTER," " TRACK", "INDEX" or "SCENE" after pressing DISPLAY.
When you play back a DVD, "TITLE" and "CHAPTER" are displayed.
When you play back a VIDEO CD/CD, "TRACK" and "INDEX" are displayed. When you play back a VIDEO CD with PBC functions, "SCENE" is displayed.
1 Select "TITLE," "CHAPTER," "TRACK," "INDEX" or "SCENE" using ↑/↓.
"✳ ✳ (✳ ✳)" is highlighted. (✳✳ means optional number in this manual.) Number in parentheses indicate the total number of titles, chapters, tracks, indexes or scenes.
2 Press → or ENTER.
"✳ ✳ (✳ ✳)" is changed to "— — (✳ ✳)".
3 Select the number of the title, chapter, track, index or scene you want to search for using the number buttons, then press ENTER.
The player starts searching. To cancel the number, press CLEAR before pressing ENTER.

To cancel selecting
Press ⟲RETURN.

Notes
- The number of titles, chapters or tracks displayed is that of the titles, chapters or tracks recorded on a disc.
- The index numbers are not displayed during PBC playback of VIDEO CDs.

Checking the Playing Time and Remaining Time

[i] DVD VIDEO CD CD

You can check the playing time and remaining time of the current title/chapter/track and the total remaining time of the disc.
Select "TIME/TEXT" or "TIME/MEMO" after pressing DISPLAY.
You can also check the DVD TEXT, CD TEXT and Disc Memo, and label the Disc Memo. See page 31.
When playing a DVD
■TIME/TEXT or TIME/MEMO
- C ✳✳:✳✳:✳✳ : Playing time of the current chapter
- C –✳✳:✳✳:✳✳ : Remaining time of the current chapter
- T ✳✳:✳✳:✳✳ : Playing time of the current title
- T –✳✳:✳✳:✳✳ : Remaining time of the current title

When playing a VIDEO CD (during PBC playback)
■TIME/MEMO
- ✳✳:✳✳:✳✳ : Playing time of the current scene

When playing a VIDEO CD (in continuous play) or CD
■TIME/TEXT or TIME/MEMO
- T ✳✳:✳✳ : Playing time of the current track
- T –✳✳:✳✳ : Remaining time of the current track
- D ✳✳:✳✳ : Playing time of the current disc
- D –✳✳:✳✳ : Remaining time of the current disc

💡 You can display "TIME/TEXT" or "TIME/MEMO" display using the remote.
Press TIME/TEXT on the remote. Each time you press the button, the time information changes.

## Selecting a Start Point Using the Time Code

[i] DVD

You can search by inputting the time code.
Select "TIME/TEXT" or "TIME/MEMO" after pressing DISPLAY.
The time code corresponds to the approximate actual playing time. For example, to search for a scene one hour past the beginning, input 1:00:00.
1 Select "C ✳✳:✳✳:✳✳ " (playing time of the current chapter) when playing a DVD.

2 Press → or ENTER.
Time code changes to "– –:– –:– –".

3 Input the time code using the number buttons, then press ENTER.
The player starts searching. To cancel the number, press CLEAR before pressing ENTER.

To cancel inputting
Press ⟲RETURN.

💡 You can display "TIME/TEXT" or "TIME/MEMO" display using the remote.
Press TIME/TEXT on the remote.

Checking the Information of the Disc

[i] DVD VIDEO CD CD

You can check the DVD TEXT or CD TEXT of the disc on the TV screen and the front panel display. When the disc is a VIDEO CD or the DVD TEXT or CD TEXT is not recorded on the disc, you can label the disc as a Disc Memo and then check it.
DVD TEXT and CD TEXT are information recorded on the disc which you cannot change.
Select "TIME/TEXT" or "TIME/MEMO" after pressing DISPLAY. Then press TIME/TEXT on the remote until DVD/CD TEXT or Disc Memo is displayed.
The information is displayed at the bottom of the display.

💡 You can display "TIME/TEXT" or "TIME/MEMO" display using the remote
Press TIME/TEXT on the remote. To display DVD/CD TEXT or Disc Memo, press TIME/TEXT until DVD/CD TEXT or Disc Memo is displayed.

Note
The DVD TEXT only in English is displayed.

Labeling discs (Disc Memo)
When the disc is a VIDEO CD or the DVD TEXT or CD TEXT is not recorded on the disc, you can change the name of the disc by labeling it on the on-screen display and put a personal title on the disc. You can input up to 20 characters per disc each.
You can also have the player display the Disc Memo each time you select the disc. The Disc Memo can be anything you like, such as a title, musician's name, category or date of purchase.
1 Select "DISC MEMO INPUT→" in "TIME/TEXT" or "TIME/MEMO"
The DISC MEMO INPUT display appears.

DISC MEMO INPUT
ABCDEFGHIJKLMNOPQRSTUVWX
YZ 0123456789<>+–*/=?_@
2 Select the character by pressing ←/↑/↓/→ or by turning the click shuttle.
The selected character changes color.

---

3 Press ENTER.
If you selected a wrong character, press CLEAR.

```
DISC MEMO INPUT
IBRAHMS

ABCDEFGHIJKLMNOPQRSTUVWX
YZ 0123456789<>+-*/=?\ _ *

To select, press [ENTER], then [ENTER].
To edit, press [CLEAR]. To cancel, press [RETURN].
```
4 Repeat steps 2 and 3 to input other characters.

5 When you have entered all the characters for the disc label, press INPUT on the remote.
The disc label is stored.

```
  1 2 ( 2 7 )
  1 8 ( 3 4 )
  C. 0 1:3 2:5 5          DVD

DVD/CD ──  BRAHMS SYMPHONY NO.- 4
TEXT or DISC
MEMO
```
To correct the characters
- You can erase the last character one by one by pressing CLEAR.
- To insert or overwrite the characters:
  1 Move the cursor to the character you want to correct by pressing |◄◄ /►►|.
  2 Select the correct character by pressing ◄/↑/↓/→ or by turning the click shuttle.
  3 To insert the character, press ENTER.
  To overwrite, don't press ENTER but move the cursor by pressing ►►|.

💡 You can display the Disc Memo input display using the remote
Press INPUT on the remote.

1 Insert the disc you want to erase the Disc Memo from.

2 Select "DISC MEMO INPUT→" in "TIME/TEXT" or "TIME/MEMO" to display the DISC MEMO INPUT display.

3 Press CLEAR.

💡 You can display the "DISC MEMO INPUT→" display by using the remote
Press TIME/TEXT on the remote.

Note
You can label up to 200 discs.

32

Changing the Sounds

With DVDs recorded with multilingual sounds, you can select the language you want while playing the DVD. With multiplex CDs or VIDEO CDs, you can select the sound from the right or left channel and listen to the sound of the selected channel through both the right and left speakers. In this case, the sound loses the stereo effect. For example, with a disc containing a song, the right channel may output the vocals and the left channel may output the instrumental. If you only want to hear the instrumental, you can select the left channel and hear it from both speakers.
Select "AUDIO" after pressing DISPLAY.

```
  1 2 ( 2 7 )
  1 8 ( 3 4 )
  C. 0 1:3 2:5 5          DVD
AUDIO ──  1: ENGLISH
          2: FRENCH        PROGRAM FORMAT
          3: SPANISH       DOLBY DIGITAL 3/2.1
                            [L] [C] [R]
                            [LS]      [RS]
To select, press [ENTER], then [ENTER].
```

■AUDIO
When playing a DVD
Select the language. The languages you can select are different depending on the DVD. When 4 digits are displayed, they represent the language code. Select the language code from the list on page 72.
When playing a VIDEO CD or a CD
- STEREO (1/L, 2/R) : The standard stereo sound
- 1/L : The sound of the left channel (monaural)
- 2/R : The sound of the right channel (monaural)

💡 You can display "AUDIO" display using the remote
Press AUDIO on the remote.

Notes
- Depending on the DVD, you may not be able to change the languages even if multilingual sounds are recorded on the DVD.
- While playing the CD/VIDEO CD, the standard stereo playback will be resumed when:
  – you open or close the disc tray
  – you turn the power off
- While playing the DVD, the sound may be changed when:
  – you open or close the disc tray
  – you change the title
- If the language is displayed as a 4 digit number, refer to the language code list on page 72.

When you select "AUDIO," the playing channels are displayed on the screen.
In Dolby Digital (AC-3) format, the signals from monaural to 5.1 channels can be recorded on a DVD. Depending on the DVD the number of the recorded channels may be different.

```
  1 2 ( 2 7 )
  1 8 ( 3 4 )               DVD
  C. 0 1:3 2:5 5                     ── Current
  1: ENGLISH                             audio
                                         format*
                PROGRAM FORMAT
                DOLBY DIGITAL 3/2.1  ── Current
                [L] [C] [R]              playing
                [LS]      [RS]           program
To select, press [ENTER], then [ENTER].  format**
```

* "PCM," "DTS,""DOLBY DIGITAL" or "MPEG" is displayed. In "DOLBY DIGITAL" case, the channels in the playing track are displayed by number as follows:
The case of Dolby Digital (AC-3) 5.1 ch:

Rear component 2

DOLBY DIGITAL [3]/[2] [1]

Front component 2 LFE (Low
+ Center component 1 Frequency Effect)
                      component 1

** The letters in the program format display mean the following:
- L: Front (L)
- R: Front (R)
- C: Center (monaural)
- LS: Rear (L)
- RS: Rear (R)
- S: Rear (monaural) – the rear component of the Dolby Surround processed stereo signal and the Dolby Digital signal.
- LFE: LFE (Low Frequency Effects)
33

The display examples are as follows:
•PCM (stereo)

```
  1: ENGLISH
                PROGRAM FORMAT
                PCM 48kHz 24bits
To select, press [ENTER], then [ENTER].
```
•Dolby Surround

```
  1: ENGLISH
                PROGRAM FORMAT
                DOLBY DIGITAL 2/0
                DOLBY SURROUND
                [L]       [R]
                     [S]
To select, press [ENTER], then [ENTER].
```

•Dolby Digital (AC-3) 5.1ch

```
  1: ENGLISH
                PROGRAM FORMAT
                DOLBY DIGITAL 3/2.1
                [L] [C] [R]
                [LS]      [RS]
To select, press [ENTER], then [ENTER].
```

•DTS

```
  1: ENGLISH
                PROGRAM FORMAT
                DTS 3/2.1
                [L] [C] [R]
                [LS]      [RS]
To select, press [ENTER], then [ENTER].
```

•MPEG

```
  1: ENGLISH
                PROGRAM FORMAT
                MPEG 2/2
                [L]       [R]
                [LS]      [RS]
To select, press [ENTER], then [ENTER].
```
💡 You can find Dolby Surround-encoded software by looking at the packaging
Use discs with the [DOLBY SURROUND] logo. In order to enjoy Dolby Digital (AC-3) playback you must use discs bearing this logo.

34

Displaying the Subtitles

With DVDs on which subtitles are recorded, you can turn the subtitles on and off whenever you want while playing the DVD.
With DVDs on which multilingual subtitles are recorded, you can change the subtitle language whenever you want while playing the DVD, and turn it on or off whenever you want. For example, you can select the language you want to master and turn the subtitles on for better understanding.
Select "SUBTITLE" after pressing DISPLAY.

```
  1 2 ( 2 7 )
  1 8 ( 3 4 )
  C. 0 1:3 2:5 5          DVD
SUBTITLE ── 1: ENGLISH
            OFF
            1: ENGLISH
            2: FRENCH
            3: SPANISH
To select, press [ENTER], then [ENTER].
```

■SUBTITLE
Select the language. The languages you can select are different depending on the DVD. When 4 digits are displayed, they indicate the language code. Select the language code from the list on page 72.
💡 You can display the "SUBTITLE" display by using the remote
Press SUBTITLE on the remote. Each time you press the button, the item changes.

Notes
- When playing a DVD on which no subtitles are recorded, no subtitles appear.
- Depending on the DVD, you may not be able to turn the subtitles on even if they are recorded on it.
- Depending on the DVD, you may not be able to turn the subtitles off.
- If the language is displayed as a 4-digit number, refer to the language code list on page 72.
- The type and number of languages for subtitles vary from disc to disc.
- Depending on the DVD, you may not be able to change the subtitles even if multilingual subtitles are recorded on it.
- While playing the DVD, the subtitle may change when:
 – you open or close the disc tray
 – you change the title

---

Changing the Angles

With DVDs on which various angles (multi-angles) for a scene are recorded, you can change the angles. For example, while playing a scene of a train in motion, you can display the view from either the front of the train, the left window of the train or from the right window without having the train's movement interrupted.
Select "ANGLE " after pressing DISPLAY. When the angles can be changed, the indicator of the "ANGLE" lights in green.

```
  1 2 ( 2 7 )
  1 8 ( 3 4 )               DVD
  C. 0 1:3 2:5 5
ANGLE ──  1
To select, press [ENTER], then [ENTER].
```

1 Select "ANGLE."

```
  1 2 ( 2 7 )
  1 8 ( 3 4 )               DVD
  C. 0 1:3 2:5 5
ANGLE ──  1
To select, press [ENTER], then [ENTER].
```

2 Press →.
The number of the angle is highlighted. The number in parentheses indicates the total number of angles.

```
  1 2 ( 2 7 )
  1 8 ( 3 4 )               DVD
  C. 0 1:3 2:5 5
          1 ( 8 )
To select, press [ENTER], then [ENTER].
```

3 Select the number of the angles using the number buttons or ↑/↓, then press ENTER.
The angle is changed to the selected angle.

```
  1 2 ( 2 7 )
  1 8 ( 3 4 )               DVD
  C. 0 1:3 2:5 5
          1
To select, press [ENTER], then [ENTER].
```
Notes
- The number of angles varies from disc to disc or from scene to scene. The number of angles that can be changed on a scene is that of angles recorded for that scene.
- Depending on the DVD, you may not be able to change the angles even if multi-angles are recorded on the DVD.

💡 You can specify the angle beforehand
Specify the angle when "ANGLE" is not displayed on the front panel display. When a scene on which multi-angles are recorded comes, the angle is automatically selected.

💡 You can select the angle using the remote
Press ANGLE on the remote. Each time you press the button, the angle changes.

💡 You can display different angles simultaneously (ANGLE VIEWER)
You can display all the angles recorded on the disc on the same screen, and start playback in continuous mode from the chosen angle directly. The angles are displayed on a screen divided in 9 sections. For details, see page 47.

35

Setting for Digital Cinema Sound 🎚 DVD VIDEO CD CD

Select the mode to enjoy multi channel surround sound such as Dolby Digital and MPEG.
Even if you connect only front speakers, Virtual Enhanced Surround lets you enjoy 3D sound by using 3D sound imaging to create virtual rear speakers from the sound of the front speakers (L, R) without using actual rear speakers.
When you connect 2 front speakers and 2 rear speakers, use 3D sound imaging to shift the sound of the rear speakers away from the actual speaker position (VIRTUAL REAR SHIFT) or to create 3 sets of virtual rear speakers from 1 set of actual rear speakers (VIRTUAL MULTI REAR).
You can feel the more effective 3D sound when you connect a receiver (amplifier) with 5.1 channel inputs, 2 front speakers, 2 rear speakers, 1 center speaker and 1 subwoofer.
Select "VIRTUAL 3D SURROUND" after pressing DISPLAY. When you select the item except "OFF," the indicator of the "VIRTUAL 3D SURROUND " lights in green.

Note
To enjoy the original Dolby Digital (AC-3) sound through the 5.1CH OUTPUT connectors, set each speaker position or distance, etc. For details on setting each speaker, see page 61.
■VIRTUAL 3D SURROUND
Select the desired item. For details on each item, see "Effects of each item."
* OFF
* VES A*
* VES B*
* NORMAL SURROUND
* ENHANCED SURROUND
* VIRTUAL REAR SHIFT
* VIRTUAL MULTI REAR
* These settings also effect the output from the AUDIO OUT connector.

Note
The items displayed are different depending on the settings of "SPEAKER SETUP" (page 61).
- You can select only "OFF," "VES A" or "VES B" when you play back a DVD and set "NONE" in "REAR" in "SIZE" under "SPEAKER SETUP" in the set up display.
- "VIRTUAL 3D SURROUND" is not displayed when you play back a VIDEO CD or CD and set "NONE" in "REAR" in "SIZE" under "SPEAKER SETUP" in the set up display.

Effects of each item

OFF
Outputs all channel signals recorded on the disc. For example, outputs 2-channel signals for stereo sound of the CD or 5-channel signals for Dolby Digital sound of the DVD. When you connect fewer than 5 (+1) speakers, the player distributes the output signal for the missing speaker to other speakers appropriately.

VES (Virtual Enhanced Surround) A
Uses 3D sound imaging to create virtual rear speakers from the sound of the front speakers (L, R) without using actual rear speakers. The virtual speakers are reproduced as shown in the illustration below.

VES (Virtual Enhanced Surround) B
Uses 3D sound imaging to create virtual rear speakers from the sound of the front speakers (L, R) without using actual rear speakers. The virtual speakers are reproduced as shown in the illustration below.

NORMAL SURROUND
Software with 2 channel audio signals, is decoded with Dolby Pro Logic to create surround effects.

ENHANCED SURROUND
Provides a greater sense of presence from Pro Logic source with monaural rear channel sound. Produces a stereo like effect in the rear channels.

VIRTUAL REAR SHIFT
Uses 3D sound imaging to shift the sound of the rear speakers away from the actual speaker position. The virtual speakers are reproduced as shown in the illustration below. The shift position differs according to the setting of the rear speaker position.
VIRTUAL MULTI REAR
Uses 3D sound imaging to create an array of virtual rear speakers from a single pair of actual rear speakers. The virtual speakers are reproduced as shown in the illustration below. The position of the virtual rear speakers differs according to the setting of the rear speaker position.
* See page 61 for details on how to set the rear speaker position.

L: Front speaker (left)
R: Front speaker (right)
SL: Rear speaker (left)
SR: Rear speaker (right)
☐: Virtual speaker

Notes
* Each item of "VIRTUAL 3D SURROUND" (except "NORMAL SURROUND" and "ENHANCED SURROUND") is effective on only discs on which a multi-channel soundtrack is recorded. Some discs do not have rear sound. In this case, you cannot get the 3D surround effect.
* When you select an item, the sound cuts off for a moment.
* When the playing signal does not contain the surround component, the effects may be difficult to hear even if you select "VES A" or "VES B."
* If you connect the front speakers only, "NORMAL SURROUND," "ENHANCED SURROUND," "VIRTUAL REAR SHIFT" and "VIRTUAL MULTI REAR" cannot be selected.
* The sound does not come from the rear speakers when you set "VIRTUAL 3D SURROUND" to "VES A" or "VES B" in the Control Menu display even if you have connected rear speakers.
* Set the front speakers to form an equilateral triangle including the listening position, or the effects may be difficult to hear even if you select "VES A" or "VES B."
* When you select "VES A" or "VES B," the player outputs the audio signal from AUDIO OUT, DIGITAL OUT (OPTICAL, COAXIAL) or 5.1CH OUTPUT FRONT connectors. Incase of the signal from DIGITAL OUT (OPTICAL, COAXIAL), however, the surround effect will be heard only when you play DVD or VIDEO CD with "DOLBY DIGITAL" set to "D-PCM," and "MPEG" to "PCM" in "AUDIO SETUP."
* When you play sound tracks with 96 kHz sampling frequency, be sure to select "OFF," or the output signals will be converted to 48 kHz (sampling frequency).
* When you connect a center speaker and a subwoofer, you can also hear the sound from the center speaker and the subwoofer. When you select "VES A" or "VES B," the player does not ouput the sound from the center speaker.

💡 You can select the item of "VIRTUAL 3D SURROUND" using this button
Press VIRTUAL 3D SURROUND on the player. Each time you press the button, the item changes.

36

37

Creating Your Own Program (Program Play) 🎚 DVD VIDEO CD CD

You can play the contents of the disc in the order you want by arranging the order of the titles, chapters or tracks on the disc and create your own program. One program can be restored in the player and contain up to 99 titles, chapters and tracks.
Select "PROGRAM" after pressing DISPLAY. When you select "ON," the indicator of the "PROGRAM" lights in green.
■PROGRAM
* OFF: plays normal.
* SET➡: allows you to create your own program.
* ON: plays Program Play.

Creating the program

**1** Select "SET➡" in "PROGRAM".
The programming display appears.

"TRACK" is displayed when you play a VIDEO CD or a CD.

2 Press ➡.
"01" is highlighted. It is ready to set the first title or track for program.

3 Select the title, chapter or track you want to program using ↑/↓, then press ENTER.
For example, select title or track 2.
(You can also use the number buttons and ENTER button to select. In this case, the selected number is displayed on the screen.)

■When playing a DVD
When both titles and chapters are recorded on the disc, select the title, then the chapter.
■When playing a VIDEO CD or CD
Select the track you want to program.

Total time of the programmed tracks

4 To program other titles, chapters or tracks, repeat Step 3.
The programmed titles, chapters or tracks are displayed from 2 in order.

5 Press ▷ to start Program Play.

To cancel Program Play
Press CLEAR.

To cancel programming
Press PROGRAM.

To change programming
1 In Step 2, select the program number of the title, chapter or track you want to change using ↑/↓.
2 Follow Step 3 for new programming.

To cancel the programmed order
To cancel all the titles, chapters or tracks in the programmed order, select "ALL CLEAR" in Step 2.
To cancel the selected program, select the program using ↑/↓ in Step 2 then press CLEAR, or select "- -" in Step 3 then press ENTER.

💡 The program remains even after the Program Play ends
When you press ▷, you can play the same program again.

💡 You can do Repeat Play or Shuffle Play of the programmed titles, chapters or tracks
During Program Play, press REPEAT or SHUFFLE. Or set "REPEAT" or "SHUFFLE" to "ON" in the Control Menu display.

💡 You can display "PROGRAM" display using the remote
Press PROGRAM.

Notes
* The number of titles, chapters or tracks displayed are that of the titles, chapters or tracks recorded on a disc.
* The program is canceled when:
  - you open or close the disc tray
  - you turn the power off
* You may not be able to do Program Play depending on the DVD.
* While you are doing PBC playback, you cannot set a program unless you stop playback once.

38

39

Playing in Random Order (Shuffle Play)

DVD VIDEO CD CD

You can have the player "shuffle" titles or tracks and play them in a random order. The playing order may differ from the previous "shuffling."
Select "SHUFFLE" after pressing DISPLAY. When you select "ON", the indicator of the "SHUFFLE " lights in green.
■SHUFFLE
Selects the setting of Shuffle Play.

When playing a DVD and when Program Play is set to OFF
• OFF: does not play a disc in random order.
• TITLE: has the player "shuffle" titles and play in a random order.
• CHAPTER: has the player "shuffle" chapters and play in a random order.

When playing a VIDEO CD, CD or DVD (when Program Play is set to ON)
• OFF: does not play a disc in random order.
• ON: has the player "shuffle" titles or tracks and play in a random order.

When playing a VIDEO CD or CD (when Program Play is set to OFF)
• OFF: does not play a disc in random order.
• TRACK: has the player "shuffle" tracks and play in a random order.

After selecting the item of "SHUFFLE", press ⊳.
The player starts Shuffle Play.

To cancel Shuffle Play
Press CLEAR.

You can display the "SHUFFLE" display by pressing the button
Press SHUFFLE.

Notes
• Shuffle Play is canceled when:
 – you open or close the disc tray
 – you turn the power off
• You may not be able to do Shuffle Play depending on the DVD.
• Up to 200 chapters in a disc can be played in a random order when "CHAPTER" is selected.

40

Playing Repeatedly (Repeat Play)

DVD VIDEO CD CD

You can play all the titles/tracks on a disc or a single title/chapter/track.
In Shuffle or Program Play mode, the player repeats the titles or tracks in the shuffled or programmed order.
You cannot do Repeat Play during PBC playback of VIDEO CDs (page 22).
You may not be able to do Repeat Play depending on the DVD.
Select "REPEAT" after pressing DISPLAY. When you do not select "OFF," the indicator of the "REPEAT" lights in green.

■REPEAT
Selects the setting of Repeat Play.
When playing a DVD and when Program Play and Shuffle Play are set to OFF
• OFF: does not play repeatedly.
• DISC: repeats all the titles.
• TITLE: repeats the current title on a disc.
• CHAPTER: repeats the current chapter.

When playing a VIDEO CD/CD and when Program Play and Shuffle Play are set to OFF
• OFF: does not play repeatedly.
• DISC: repeats all the tracks on a disc.
• TRACK: repeats the current track.

When Program Play or Shuffle Play is set to ON
• OFF: does not play repeatedly.
• ON: repeats Program Play or Shuffle Play.

To cancel Repeat Play
Press CLEAR.

You can display the "REPEAT" display by pressing the button
Press REPEAT.

Note
Repeat play is canceled when you turn the power off.

Repeating a Specific Portion (A↔B Repeat)

DVD VIDEO CD CD

You can play a specific portion of a title, chapter, track repeatedly. This is useful when you want to memorize lyrics.
During PBC Playback of VIDEO CDs (page 22), this function is available only while playing moving pictures.
You may not be able to do A↔B Repeat Play depending on the DVD.
Select "A-B REPEAT" after pressing DISPLAY. During A↔B Repeat Play, the indicator of the "A-B REPEAT" lights in green.
■A-B REPEAT
• SET➡: sets the A and B points.
• OFF: does not play a specific portion of a title/chapter/track repeatedly.

41

Repeating a Specific Portion (A↔B Repeat)

Setting a portion for A↔B repeat

1 Select "SET➡" in "A-B REPEAT."
The A↔B REPEAT setting display appears.
2 During playback, when you find the starting point (point A) of the portion to be played repeatedly, press ENTER.
The starting point (point A) is set.
3 When you reach the ending point (point B), press ENTER again.
The setting points are displayed and the player starts repeating this specific portion.
"A-B" appears on the front panel display during A↔B repeat play.
To cancel A↔B Repeat Play
Press CLEAR.

Notes
• You can set A↔B Repeat on only one specific portion.
• A↔B Repeat is canceled when:
 – you open or close the disc tray
 – you turn the power off
• When you set A↔B Repeat, the settings for Shuffle Play and Program Play are canceled.
• You may not be able to set A↔B Repeat, depending on the scene of the DVD or the VIDEO CD.

42

Checking the Play Information

DVD

You can check the play information on the bit rate, bit rate history or the portion where the disc is played (layer).
While playing a disc, the approximate bit rate of the playback picture is always displayed by Mbps (Mega bit per second) and the audio by Kbps (Kilo bit per second).
Select "ADVANCED" after pressing DISPLAY.

■ADVANCED
When playing a DVD
• BIT RATE: displays bit rate.
• BIT RATE HISTORY: displays bit rate and bit rate history.
• LAYER: displays layer and the point picked up.
• OFF: turns off ADVANCED display.

Displays of each item

BIT RATE
When you play MPEG AUDIO sound tracks
Bit rate refers to the amount of video/audio data per second in a disc. The higher the bit rate is, the larger the amount of data. When the bit rate level is high, there is a large amount of data. However, this does not always mean that you can get higher quality pictures or sounds.

BIT RATE HISTORY
Indicates the transition of bit rate of the playback picture for a period up to the present.

43

LAYER

Indicates where the disc is played. When the DVD has dual-layer, the player indicates which layer is being read. For details on layer, see page 70.

Reducing the Picture Noise (DNR: Digital Video Noise Reduction)

You can make the picture clearer by reducing the picture noise of the background.
Select "DNR" after pressing DISPLAY.
When you select "DNR1," "DNR2," or "DNR3," the indicator of the "DNR " lights in green.
■DNR
As the value increases, the picture noise will be reduced. However, afterimages may increase.
* OFF: turns off the DNR function
* DNR1
* DNR2
* DNR3

Notes
* Depending on the disc, the effect may be difficult to tell.
* If the afterimages appear on the TV screen, set the noise reduction function to off on your TV. Then set "DNR" to "OFF" on the Control Menu display.

Adjustments for Playback Picture (VIDEO EQ: Video Equalizer)

You can adjust the video output of the DVD or VIDEO CD from the player, not from the TV, to obtain the picture quality you want. Choose one of the video modes whichever best suits the program you are watching.
When you select "MEMORY➡" in a menu item, adjust the value.
Select "VIDEO EQ" after pressing DISPLAY.
■VIDEO EQ
Selects the setting of video control.
* STANDARD: displays a standard picture
* DYNAMIC: emphasizes the black level and so produces a bolder dynamic picture
* CINEMA: displays a finely detailed picture
* MEMORY➡: adjusts the picture items

To adjust the picture items
You can adjust the following picture items individually.
* PICTURE
* BRIGHTNESS
* COLOR
* SHARPNESS

Adjustments for Playback Picture (VIDEO EQ: Video Equalizer)

1 Select "MEMORY➡" in "VIDEO EQ."
The video control display appears.

⬇
2 Select the picture item you want to adjust using ↑/↓, then press ENTER.
The adjustment bar of the selected item appears.
To cancel adjusting the picture halfway, press ⟳RETURN.
3 Adjust the selected picture item using ←/→, then press ENTER.

4 To adjust other items, repeat Steps 2 and 3.

To cancel adjusting the picture
Press ⟳RETURN.

✓ To reset the picture items
Select "STANDARD" in "MEMORY➡."

Note
Only one setting of the picture items you adjusted in "MEMORY➡" can be stored. When you adjust the items, new setting erases the setting adjusted before.

Displaying Different Angles Simultaneously

With DVDs on which various angles (multi-angles) for a scene are recorded, you can display all the angles recorded on the disc on the same screen, and start playback in continuous mode at the chosen angle directly. The angles are displayed on a screen divided in 9 sections.
Select "ANGLE VIEWER" after pressing DISPLAY. When you can select "ANGLE VIEWER", the indicator of the "ANGLE VIEWER" lights in green.
To select the one angle
Select the angle using ←/↑/↓/→, then press ENTER. The selected angle only is displayed.

To cancel displaying multi-angles
Press ⟳RETURN.

✓ You can check the number on the front panel display
The number of the angle you select is displayed on the front panel display.

Notes
* Depending on the DVD, you may not be able to change the angles even if multi-angles are recorded on the DVD.
* When a scene for which various angles (multi-angles) are not recorded comes while displaying different angles simultaneously, the player returns to the normal play.

Dividing a Track into 9 Sections (Strobe Play)

You can display 9 consecutive sections of the disc on the screen. In this case, the sections show still images.
Select "STROBE PLAYBACK" after pressing DISPLAY.
To cancel watching the strobe play
Press ⟳RETURN.

✓ During pause mode, 9 still images around the pause position are displayed
It is convenient to see the still images around the specific portion.

Note
Depending on the disc, there are some scenes you may not be able to watch with the strobe play.

Scanning the Title, Chapter and Track [i] [DVD] [VIDEO CD]

You can check the top picture of titles, chapters and tracks of the disc on a screen divided in 9 sections, and start playback from the chosen title ,chapter or track.
Select "TITLE VIEWER"(DVD only), "CHAPTER VIEWER"(DVD only) or "TRACK VIEWER"(VIDEO CD only) after pressing DISPLAY.

```
  12(27)      ►
  18(34)      DVD
  0:01:32:55
```

TITLE VIEWER
CHAPTER VIEWER
TRACK VIEWER

To select, press [◄/▲/▼/►], then press [ENTER]

To start playback from the selected picture
Select the picture using ◄/▲/▼/►, then press ENTER.
The playback starts from the selected picture.

When there are over 9 titles or chapters
▼ appears at the right bottom of the screen. Use ▼ to scroll and display next titles or chapters.

```
1  2  3
4  5  6
7  8  9
```

To select, press [◄/▲/▼/►] Cancel [RETURN]
You can check the number on the front panel display
The number of the title, chapter and track you select is displayed on the front panel display.

To cancel scanning the title, chapter and track
Press ♂♦RETURN.

Notes
• Depending on the disc, you may not be able to scan the title, chapter and track.
• You cannot scan the title, chapter and track on a VIDEO CD during PBC playback.

Setting and Selecting Favorite Scene (Bookmark) [i] [DVD] [VIDEO CD]

You can have the player store specific portions of the disc in memory and play them immediately whenever you want without the need to search (Bookmark). Up to 9 bookmarks per disc for up to 200 discs can be stored in memory.
Select "BOOKMARK" after pressing DISPLAY. When you play the disc which has bookmarks, the indicator of the "BOOKMARK" lights in green.
```
  12(27)      ►
  18(34)      DVD
  0:01:32:55
```

BOOKMARK

To select, press [◄/▲/▼/►], then press [ENTER]

To start playback from the selected picture
Select the picture using ◄/▲/▼/►, then press ENTER.
The playback starts from the selected picture.

To cancel scanning the bookmark pictures
Press ♂♦RETURN.

To reset the bookmark
Select the the point on which you want to reset the bookmark using ◄/▲/▼/►, then press CLEAR.

To reset the all bookmarks of the player
Select "BOOKMARK RESET➡" under the "CUSTOM SETUP" in the setup display. For details on resetting all the bookmark of the player, see page 55.

Setting the bookmark

During playback, when you find the scene to be bookmarked, press BOOK MARK on the remote.
The bookmark is set.

BOOK MARK

This chapter describes how to set and how to adjust using the on-screen SET UP menu. Most settings and adjustments are required to be set when you first use the player. This chapter also describes how to set the remote for controlling the TV or the AV receiver (amplifier).

Using the Setup Display [i] [DVD] [VIDEO CD] [CD]

Using the setup display, you can do the initial setup, adjusting the picture and sound quality, setting the various outputs, etc. You can also set a language for the subtitles and the setup display, limit playback by children, etc.
For details on each setup display item, see pages 52 to 64.

Note
You can display the setup display only when the player is in stop mode.
1 Press SET UP to display the setup display on the TV screen.

```
LANGUAGE SETUP
OSD              ENGLISH
DVD MENU         ENGLISH
AUDIO            ORIGINAL
SUBTITLE         AUDIO FOLLOW
```

To set, press [◄/▲/▼/►], then [ENTER]
To quit, press [SET UP]

Setting the Language for Display and Sound (LANGUAGE SETUP) 🎛 DVD VIDEO CD

Select "LANGUAGE SETUP" after pressing SET UP.
"LANGUAGE SETUP" allows you to set various languages for on-screen display or sound.
Default settings are underlined.

Note
When you select a language that is not recorded on the DVD, one of the recorded languages is automatically selected except for the "OSD".
■OSD (On-Screen Display)
Switches the language for the on-screen display.
• ENGLISH (ENGLISH)
• FRANÇAIS (FRENCH)
• DEUTSCH (GERMAN)
• ITALIANO (ITALIAN)
• ESPAÑOL (SPANISH)
• NEDERLANDS (DUTCH)
• DANSK (DANISH)
• SVENSKA (SWEDISH)
• SUOMI (FINNISH)
• NORSK (NORWEGIAN)
• PORTUGUÊS (PORTUGUESE)

■DVD MENU
Switches the language for the DVD menu.
• ENGLISH (ENGLISH)
• FRANÇAIS (FRENCH)
• DEUTSCH (GERMAN)
• ITALIANO (ITALIAN)
• ESPAÑOL (SPANISH)
• NEDERLANDS (DUTCH)
• DANSK (DANISH)
• SVENSKA (SWEDISH)
• SUOMI (FINNISH)
• NORSK (NORWEGIAN)
• PORTUGUÊS (PORTUGUESE)
• РУССКИЙ (RUSSIAN)
• CHINESE (CHINESE)
• JAPANESE (JAPANESE)
• OTHERS➡
When you select "OTHERS➡," select and enter the language code from the list using the number buttons (page 72).
After you have once selected, the language code (4 digits) is displayed.

52

■AUDIO
Switches the language for the sounds.
• ORIGINAL: the language given priority in the disc
• ENGLISH (ENGLISH)
• FRANÇAIS (FRENCH)
• DEUTSCH (GERMAN)
• ITALIANO (ITALIAN)
• ESPAÑOL (SPANISH)
• NEDERLANDS (DUTCH)
• DANSK (DANISH)
• SVENSKA (SWEDISH)
• SUOMI (FINNISH)
• NORSK (NORWEGIAN)
• PORTUGUÊS (PORTUGUESE)
• РУССКИЙ (RUSSIAN)
• CHINESE (CHINESE)
• JAPANESE (JAPANESE)
• OTHERS➡
When you select "OTHERS➡," select and enter the language code from the list using the number buttons (page 72).
After you have once selected, the language code (4 digits) is displayed.

■SUBTITLE
Switches the language for the subtitles.
• AUDIO FOLLOW*
• ENGLISH (ENGLISH)
• FRANÇAIS (FRENCH)
• DEUTSCH (GERMAN)
• ITALIANO (ITALIAN)
• ESPAÑOL (SPANISH)
• NEDERLANDS (DUTCH)
• DANSK (DANISH)
• SVENSKA (SWEDISH)
• SUOMI (FINNISH)
• NORSK (NORWEGIAN)
• PORTUGUÊS (PORTUGUESE)
• РУССКИЙ (RUSSIAN)
• CHINESE (CHINESE)
• JAPANESE (JAPANESE)
• OTHERS➡
When you select "OTHERS➡," select and enter the language code from the list using the number buttons (page 72).
After you have once selected, the language code (4 digits) is displayed.

* When you select "AUDIO FOLLOW," the language for the subtitles changes according to the language for the setting you selected in "AUDIO."

Note
The player gives priority to the settings of "SUBTITLE" and "AUDIO" in the Control Menu display when "PLAYBACK MEMORY" is set to "ON." The settings of "SUBTITLE" and "AUDIO" selected in the setup display may not appear in this case. For details on the Playback Memory function, see page 55.

Settings for Display (SCREEN SETUP) 🎛 DVD VIDEO CD

Select "SCREEN SETUP" after pressing SET UP.
"SCREEN SETUP" allows you to set the display according to the playback conditions.
Default settings are underlined.
■TV TYPE
Selects the aspect ratio of the TV to be connected.
• 16:9: when you connect a wide-screen TV to the player.
• 4:3 LETTER BOX: when you connect a normal TV to the player. Displays a wide picture with bands displayed on the upper and lower portions of the screen.
• 4:3 PAN SCAN: when you connect a normal TV to the player. Displays the wide picture on the whole screen with a portion automatically cut off.

16:9

4:3 LETTER BOX

4:3 PAN SCAN

Note
Depending on the DVD, "4:3 LETTER BOX" may be selected automatically instead of "4:3 PAN SCAN" and vice versa.

■SCREEN SAVER
Turns on and off the screen saver. If you turn on the screen saver, the screen saver image appears when you leave the player or the remote in pause or stop mode for 15 minutes or when you play back a CD for more than 15 minutes. The screen saver is useful to prevent your display from becoming damaged.
• ON: turns on the screen saver.
• OFF: turns off the screen saver.

■BACKGROUND
Selects the background color or picture of the TV screen in stop mode or while playing a CD.
• JACKET PICTURE: The jacket picture appears in the background, but only when the jacket picture is already recorded on the disc.
• PICTURE MEMORY: Your favorite picture appears in the background when you have the player store in memory your favorite scene recorded on the disc for the background picture. For the way of storing in memory, see "Storing the picture in memory."
• GRAPHICS: The graphic picture stored in memory in the player beforehand appears in the background.
• BLUE: The background color is blue.
• BLACK: The background color is black.

■STARTUP SCREEN
Selects the startup screen. The startup screen image you selected appears when you turn on the player.
• STANDARD: The standard startup screen memorized in the player beforehand appears.
• PICTURE MEMORY: Your favorite picture appears in the startup screen when you have the player store in memory your favorite scene recorded on the disc for the startup screen. For the way of storing in memory, see "Storing the picture in memory" (page 54).

53

Settings for Display (SCREEN SETUP)

Storing the picture in memory

During playback, when you find the scene to be stored in memory, press PICTURE MEMORY on the remote.
The picture is stored in memory.

Notes
• The player can store in memory only one scene. The stored picture appears in both the background and the startup screen.
• When the picture is stored in memory by pressing PICTURE MEMORY, the picture stored before is not retained in memory.
• When you operate this player during storing picture in memory, the picture does not be stored in memory.

54

Custom Settings (CUSTOM SETUP) 🎛 DVD VIDEO CD

Select "CUSTOM SETUP" after pressing SET UP.
"CUSTOM SETUP" allows you to set the playback conditions.
Default settings are underlined.
■COMPONENT OUT
Selects the methods of outputting video signals from the COMPONENT VIDEO OUT (Y, CB/B-Y, CR/R-Y) connectors on the rear panel of the player.
When you select "ON," you need to connect the monitor or projector via EURO AV, VIDEO OUT or S VIDEO OUT beforehand.
• OFF: outputs no signals.
• ON: outputs the component video signals.

Notes
• When you set "EURO AV OUT" to "RGB", you cannot set "COMPONENT OUT" to "ON."
• When you connect the player to a monitor or projector via only the COMPONENT VIDEO OUT connectors, do not select "OFF." If you select "OFF" in this case, the picture may not appear.

■EURO AV OUT
Selects the methods of outputting video signals from the EURO AV 1(RGB)–TV connectors on the rear panel of the player.
• VIDEO: outputs the video signals.
• S VIDEO: outputs the S video signals.
• RGB: outputs the RGB signals.

Notes
• When you set "COMPONENT OUT" to "ON," you cannot set "EURO AV OUT" to "RGB."
• If your TV is not conformed to the S video or the RGB signals, no picture appears on the TV screen even if you select "S VIDEO" or "RGB." Refer to the instructions supplied with your TV.
• If your TV has only one EURO AV IN connector, do not select "S VIDEO."

■AUTO PLAY
Selects the setting of Auto Play when you connect the AC power cord to the AC outlet.
• OFF: does not use "TIMER," "DEMO1" or "DEMO2" to start playing.

• TIMER: starts playing a disc automatically when you connect the AC power cord to the AC outlet. By connecting a timer (not supplied), you can start playing at any time you want.
• DEMO1: starts playing the demonstration 1 automatically.
• DEMO2: starts playing the demonstration 2 automatically.

■DIMMER
Adjusts the lighting of the front panel display.
• BRIGHT: makes the front panel display bright.
• DARK: makes the front panel display dark.
• OFF: turns off the lighting of the front panel display.

■PAUSE MODE
Selects the picture in pause mode.
• AUTO: A picture including subjects that move dynamically is output with no jitter. Normally select this position.
• FRAME: A picture including subjects that do not move dynamically is output with high resolution.

■BOOKMARK RESET➡
Select "BOOKMARK RESET➡." The BOOKMARK reset display appears. And then press ENTER to reset all bookmarks.

■PARENTAL CONTROL➡
Sets a password and playback limitation level when you play DVDs with playback limitation for children.
For details, see "Limiting Playback by Children (Parental Control)."

■PLAYBACK MEMORY
You can have the player store the settings of SUBTITLE and VIDEO EQ, etc., of each disc up to 200 discs.
(Playback Memory)
Set the Playback Memory function on or off.
• ON: stores the settings in memory when you eject the disc.
• OFF: does not store the settings in memory.

Following settings are stored in memory with the Playback Memory function.
– AUDIO (page 33)
– SUBTITLE (page 34)
– ANGLE (page 35)
– VIRTUAL 3D SURROUND (page 36)
– VIDEO EQ (page 45)
– DNR (page 45)

Note
The player can store in memory the settings of up to 200 discs. When you have the player store over 200 discs in memory, each new setting erases the setting from those first stored.

Limiting Playback by Children (Parental Control) DVD

Select "CUSTOM SETUP" after pressing SET UP.
Playing some DVDs can be limited depending on the age of users. The "Parental Control" function allows you to set a playback limitation level.
1 Select "PARENTAL CONTROL" using ↑/↓, then press ENTER.
■When you have not entered a password yet
The display for entering a password appears.
■When you have already entered a password
The display for confirming the password appears. Skip Step 2.

55
2 Enter a password in 4 digits using the number buttons, then press ENTER.
The digits change to asterisks (X), and the display for confirming the password appears.
3 To confirm your password, enter it using the number buttons, then press ENTER.
The display for setting the playback limitation level and changing the password appears.
4 Select "STANDARD" using ↑/↓, then press ➡.
5 Select an area as the standard for playback limitation level using ↑/↓, then press ➡.
When you select "OTHERS➡," select and enter the standard code in the table below using number buttons.

6 Select "LEVEL" using ↑/↓, then press ➡.

7 Select the level you want using ↑/↓, then press ENTER.

The lower the value is, the more strict the limitation.

To return to the normal screen
Press SET UP.

To turn off the Parental Control function and play the DVD after entering your password
Set "LEVEL" to "OFF" in Step 7, then press ▷.

To change the password
1 After Step 3, select "CHANGE PASSWORD" using ↑/↓, then press ➡ or ENTER.
The display for changing the password appears.
2 Follow Steps 2 and 3 to enter a new password.

💡 You can turn off the Parental Control function just after inserting the DVD (Parental Control Temporarily Canceled)
When you set a playback limitation level and insert the DVD, the PARENTAL CONTROL display appears. Enter the password to turn off the Parental Control function.
When you stop playing the DVD, the level returns to the original level.

💡 If you have forgot your password
Enter the 6 digits number "199703" in Step 2 to clear the current password. To enter a new password, follow the procedure from Step 2 again.

Notes
• When you play DVDs which do not have the Parental Control function, playback cannot be limited on this player.
• When you do not set a password, you cannot change the settings for playback limitation.
• Depending on the DVD, you may be asked to change the parental control level while playing the disc. In this case, enter the password, then change the level.
When you stop playing the DVD, the level returns to the original level.

Standard	Code number

United Kingdom	2184

Settings for Sound (AUDIO SETUP)

Select "AUDIO SETUP" after pressing SET UP.
"AUDIO SETUP" allows you to set the sound according to the playback conditions.
Default settings are underlined.
■AUDIO ATT (attenuation)
Selects the setting of the output from the AUDIO OUT, EURO AV (1,2) and 5.1 OUTPUT connectors according to the audio equipment to be connected.
• OFF: turns off the audio attenuation.
• ON: reduces the audio output level so that no sound distortion occurs.

Note
The setting does not affect the output from the DIGITAL OUT OPTICAL and COAXIAL connectors.

■AUDIO FILTER
Selects the type of digital filter to reduce the noise of a frequency higher than 22.05kHz (fs 44.1kHz), 24kHz (fs 48kHz) or 48kHz (fs 96kHz).
• SHARP: makes the sound clear and provides smooth sound reproduction. Normally set this position.
• SLOW: makes the sound warm and deep.

Note
Depending on the disc, the effect on the sound may be difficult to hear.

■AUDIO DRC (Dynamic Range Control)
Makes the sound clear with the volume turned down at night, etc., when you play a DVD. This affects the output from the DIGITAL OUT connectors only when "PCM" in "DIGITAL OUT" is set to "ON," and it affects the output from the AUDIO OUT, EURO AV (1,2) and 5.1CH OUTPUT connectors.
• STANDARD: Normally select this position.
• TV MODE: makes the low sound clear even if you turned the volume down, so it is good for playing at night. It is especially recommended when you listen to the sound using the speakers of the TV.
• WIDE RANGE: It gives you the feeling of being at a live performance. When you use high quality speakers, it is more effective.

Notes
• When you play DVDs without the AUDIO DRC function, the effect on the sound may be difficult to hear.
• When this item is set to "WIDE RANGE," the sound volume from other than the 5.1CH OUTPUT connectors may be less than usual.
• "WIDE RANGE" cannot be selected when you have selected "NONE" in "SIZE" under "SPEAKER SETUP."

■TRACK SELECTION
Gives the sound track which contains the highest number of the channels priority when you play a DVD on which multiple audio formats are recorded. If multiple audio channels are recorded in PCM, DTS, MPEG AUDIO or Dolby Digital (AC-3) format, the higher-numbered channel audio recorded in PCM, DTS, MPEG AUDIO or Dolby Digital (AC-3) format is played.
• OFF : No priority given.
• AUTO : Priority given.,

Notes
• When the player stores the settings in memory with the Playback Memory function, the player may not give priority even if you select "AUTO."
• When you set this item to "AUTO", the language may change depending on the "AUDIO" settings in "LANGUAGE SETUP." The "TRACK SELECTION" setting has higher priority than that of "AUDIO" settings in "LANGUAGE SETUP" (page 52).
• If you set "DTS" in "AUDIO SETUP" to "OFF", the DTS sound track is not played even if you set this item to "AUTO" and the highest-numbered channel audio is recorded in DTS format.
• If PCM, DTS, MPEG AUDIO and Dolby Digital (AC-3) sound tracks have the same number of the highest channels, the player selects PCM, DTS, Dolby Digital (AC-3) and MPEG AUDIO sound tracks, in this order.
• Depending on the DVD, the audio with priority may be predetermined. In this case, you cannot give priority to the DTS, MPEG AUDIO or Dolby Digital (AC-3) format by selecting "AUTO."

■DOWN MIX*
Switches the mixing down methods when you play a DVD on which the sound in Dolby Digital (AC-3) format is recorded.
• DOLBY SURROUND: when the player is connected to an audio component that conforms to Dolby surround (Pro Logic).
• NORMAL: when the player is connected to a normal audio component.

* The setting affects the following connectors:
–AUDIO OUT connector
–DIGITAL OUT (OPTICAL, COAXIAL) connectors.

■DIGITAL OUT
Selects output signals via the DIGITAL OUT OPTICAL and COAXIAL connectors.
• ON: Normally select this position. When you select "ON," set "DOLBY DIGITAL," "MPEG" and "DTS." For details on setting them, see "Setting for the Signal to the Digital Output."
• OFF: when the player does not output the sound signals via DIGITAL OUT OPTICAL and COAXIAL connectors, if you select this position, the influence of the digital circuit upon the analog one is minimum.

Notes
• When you play the sound tracks with 96 kHz sampling frequency, the output signals from the DIGITAL OUT (OPTICAL, COAXIAL) are converted to 48 kHz (sampling frequency). Sampling Frequency stays at 96kHz only when the signals are output from AUDIO OUT connector.
• When you select "OFF," you cannot set "DOLBY DIGITAL," "MPEG" and "DTS."

Setting for the Signal to the Digital Output
When you select "ON," set "DOLBY DIGITAL," "MPEG" and "DTS."
Switches the methods of outputting audio signals when you connect a digital component such as a receiver (amplifier) having a digital connector, an audio component having a built-in DTS decoder, a DAT or MD via the DIGITAL OUT OPTICAL or COAXIAL connector using an optical or coaxial digital connecting cord. For details on the connection, see page 13.
■DOLBY DIGITAL
Selects output Dolby Digital (AC-3) signals via the DIGITAL OUT OPTICAL and COAXIAL connectors. You cannot select this item when you set "DIGITAL OUT" to "OFF."
• D-PCM (Downmix PCM): when you play the Dolby Digital (AC-3) sound tracks, the output audio signals are mixed down to 2 channels. With the settings of the item "DOWN MIX" in "AUDIO SETUP," you can select whether the signals conform to Dolby surround (Pro Logic) or not.
• DOLBY DIGITAL: when the player is connected to an audio component with a built-in Dolby Digital (AC-3) decoder.

Note
If the player is connected to an audio component lacking a built-in Dolby Digital (AC-3) decoder, do not set "DOLBY DIGITAL" in "AUDIO SETUP" to "DOLBY DIGITAL." Otherwise, when you play the Dolby Digital (AC-3) sound track, a loud noise or no sound will come out from the speakers, affecting your ears or causing the speakers to be damaged.

Settings for Sound (AUDIO SETUP)

■MPEG

Selects output MPEG AUDIO signals via the DIGITAL OUT OPTICAL and COAXIAL connectors. You cannot select this item when you set "DIGITAL OUT" to "OFF."
* PCM: when the player is connected to an audio component lacking a built-in MPEG decoder. If you play MPEG AUDIO sound tracks, the player outputs stereo signals taken from MPEG AUDIO signals via the DIGITAL OUT OPTICAL and COAXIAL connectors.
* MPEG: when the player is connected to an audio component having a built-in MPEG decoder.

> **Note**
> If the player is connected to an audio component lacking a built-in MPEG decoder, do not set "MPEG" in "AUDIO SETUP" to "MPEG." Otherwise, when you play the MPEG AUDIO sound track, a loud noise will come out from the speakers, affecting your ears or causing the speakers to be damaged.

> **Note**
> The player outputs the MPEG analog audio sound only from the front speakers when you set "DIGITAL OUT" in "AUDIO SETUP" to "ON" and then set "MPEG" to "MPEG."

■DTS

Selects output DTS signals via the DIGITAL OUT OPTICAL and COAXIAL connectors. You cannot select this item when you set "DIGITAL OUT" to "OFF."
* OFF: when the player is connected to an audio component lacking a built-in DTS decoder.
* ON: when the player is connected to an audio component having a built-in DTS decoder.

Note
Select the setting correctly. Otherwise, no sound or strange sound will come out from the speakers, affecting your ears or causing the speakers to be damaged.

> * Do not play the DTS sound tracks without connecting the player to an audio component having a built-in DTS decoder. You cannot hear the DTS sound unless you connect the player to an audio component having a built-in DTS decoder.
> * When you play the DTS sound track on a CD, a loud noise will come out from the AUDIO OUT, 5.1CH OUTPUT (FRONT L/R) and PHONES connectors, affecting your ears or causing the speakers or headphones to be damaged.
> * When you play the DTS sound track on a DVD, no sounds will come out from the AUDIO OUT, 5.1CH OUTPUT (FRONT L/R) and PHONES connectors.

Notes on playing the DTS sound tracks on a CD
* Do not play the DTS sound tracks without connecting the player to an audio component having a built-in DTS decoder. The player output the DTS signal via the DIGITAL OUT OPTICAL and COAXIAL connectors even if "DTS" in "AUDIO SETUP" is set to "OFF" in the setup display, affecting your ears or causing the speakers to be damaged.
* The DTS indicator on the front panel does not light up even if the player outputs DTS signal via the DIGITAL OUT OPTICAL and COAXIAL connectors.
* Set the sounds to "STEREO" when you play the DTS sound tracks on a CD. (See "Changing the Sounds" on page 53.) If you set the sounds to "1/L" or "2/R", no sounds will come out from the DIGITAL OUT OPTICAL and COAXIAL connectors.

Notes on playing the DTS sound tracks on a DVD
* No sounds will come out from the AUDIO OUT and PHONES connectors.
* If the player is connected to an audio component lacking a built-in DTS decoder, do not set "DTS" in "DIGITAL OUT" to "ON" in the setup display. Otherwise, when you play the DTS sound track, a loud noise will come out from the speakers, affecting your ears or causing the speakers to be damaged.
* When you set "DTS" in "AUDIO SETUP" to "OFF", no sound will come out from the DIGITAL OUT OPTICAL and COAXIAL connectors even if you play DTS sound tracks on DVDs.

60

Speaker Set Up

Select "SPEAKER SETUP" after pressing SET UP.
To obtain the best possible surround sound, first specify the size of speakers you have connected and their distance from your listening position and set the balance and level. Then use the test tone to adjust the speaker volumes to the same level.
For the speaker hook ups, see pages 14 to 15.
■SIZE

Selects the size of the speakers to be connected.
* FRONT
  —LARGE: Normally select this.
  —SMALL: When the sound cracks or the effects of the surround is difficult to hear, select this. This activates the Dolby Digital (AC-3) bass redirection circuitry and outputs the bass frequencies of the speaker from subwoofers.
* CENTER
  —NONE: If you will not connect a center speaker, select this.
  —LARGE: Normally select this.
  —SMALL: When the sound cracks, select this. This activates the Dolby Digital (AC-3) bass redirection circuitry and outputs the bass frequencies of the speaker from some other speakers .
* REAR
  —NONE: If you will not connect a rear speaker, select this.
  —LARGE (REAR*/SIDE*): Normally select this.
  —SMALL (REAR*/SIDE*): When the sound cracks or the effects of the surround is difficult to hear, select this. This activates the Dolby Digital (AC-3) bass redirection circuitry and outputs the bass frequencies of the speaker from some other speakers .
* SUBWOOFER
  —NONE: If you do not connect a subwoofer, select this. This activates the Dolby Digital (AC-3) bass redirection circuitry and outputs the LFE signals from the front speakers.
  —YES: If you connect a subwoofer, select this to output the LFE (low frequency effects) channel from the subwoofer.

* Rear speaker position (REAR/SIDE)
These items let you specify the location of your rear speakers for proper implementation of "VIRTUAL REAR SHIFT" and "VIRTUAL MULTI REAR" in the Control Menu display. Refer to the illustration below.
* Set to "SIDE" if the location of your rear speakers corresponds to section A.
* Set to "REAR" if the location of your rear speakers corresponds to section B.
This setting effects only the "VIRTUAL REAR SHIFT" and "VIRTUAL MULTI REAR" mode.
Notes
* When you select an item, the sound cuts off for a moment.
* The cut off frequency for the subwoofer is fixed at 100Hz.
* Set the subwoofer's cut off frequency as high as possible.
* Depending on the settings of other speakers, the subwoofer may output excessive sound.
* If your speakers are too small to reproduce low bass frequencies, please set all speaker settings to "SMALL" and utilize a subwoofer for low frequency sound.

■DISTANCE

You can vary the distance of each speaker as follows. Default adjustments are in the parentheses.
* FRONT (3.6m)
  Front speaker distance can be set in 0.2 meter steps from 1 to 15 meters.
* CENTER (3.6m)
  Center speaker distance can be set in 0.2 meter steps from a distance 0.6 meter farther to the front speaker to a distance 1.5 meters closer to your listening position.
* REAR (3.0m)
  Rear speaker distance can be set in 0.2 meter steps from a distance equal to the front speaker distance to a distance 5 meters closer to your listening position.

Notes
* When you set the distance, the sound cuts off for a moment.
* If each of the front or rear speakers are not placed an equal distance from your listening position, set the distance of the closest speaker.
* Do not place the rear speaker farther away from your listening position than the front speakers.

61

Speaker Set Up

■BALANCE

You can vary the balance of each speaker as follows. Default adjustments are in the parentheses.
* FRONT (0dB)
  Adjust the balance between the front left and right speakers (-6dB [L] to +6dB [R], 0.5dB steps).
* REAR (0dB)
  Adjust the balance between the rear left and right speakers (-6dB [L] to +6dB [R], 0.5dB steps).

Note
When you select "YES A" or "YES B" in "VIRTUAL 3D SURROUND" in the Control Menu display, you cannot adjust the level or the balance of the speakers except for the front speakers.

■LEVEL

You can vary the level of each speaker as follows. Default adjustments are in the parentheses.
* CENTER (0dB)
  Adjust the level of the center speaker (-6dB to +6dB, 0.5dB steps).
* REAR (0dB)
  Adjust the level of the rear speakers (-6dB to +6dB, 0.5dB steps).
* SUBWOOFER (0dB)
  Adjust the level of the subwoofer (-10dB to +6dB, 0.5dB steps).

■TEST TONE

You can hear the test tone from each speaker in sequence.
* OFF: The test tone is not emitted from speakers.
* ON: During adjustment of "BALANCE" or "LEVEL," the test tone is emitted from both speakers simultaneously.

Note
While you are playing a disc, you cannot hear the test tone. Execute the test tone after you stop playback.

To adjust the volume of all the speakers at one time
Use the receiver's (amplifier's) volume control.

To return to the default setting
Select the item, then press CLEAR.

Adjusting the speaker volume

1 While you stop playback, select "SPEAKER SETUP" after pressing SET UP.

2 Select "TEST TONE" and set "TEST TONE" to "ON." You will hear the test tone from each speaker in sequence.

3 From your listening position, select "BALANCE" or "LEVEL" and adjust the value of "BALANCE" and "LEVEL" using ↑/↓.
During this adjustment, the test tone is emitted from both speakers simultaneously.

4 Select "TEST TONE" and set "TEST TONE" to "OFF" to turn off the test tone.

62

Controlling the TV or the AV Receiver (Amplifier) with the Supplied Remote 🔢

If you adjust the remote signal, you can control your TV with the supplied remote. Default setting is to control Sony TVs with the ◼ mark.
When you connect the player to a Sony AV receiver (amplifier), you can also set the input of the receiver (amplifier) to this player with the supplied remote.
Controlling TVs with the remote

1 Slide TV/DVD switch to TV.

2 Hold down I/⏻ (POWER), and enter your TV's manufacturer's code (see the table) using the number buttons. Then release I/⏻ (POWER).

Code numbers of controllable TVs
If more than one code number is listed, try entering them one at a time until you find the one that works with your TV.

Notes
* If you enter a new code number, the code number previously entered will be erased.
* When you replace the batteries of the remote commander, the code number automatically resets to 01 (Sony). Reset the appropriate code number.

Manufacturer	Code number
Sony (default)	01
Grundig	11
Hitachi	24
Loewe	45
Nokia	15,16,69
Panasonic	17,49
Philips	06,07,08
Saba	12,13
Samsung	22,23
Sanyo	25
Sharp	29
Telefunken	36
Thomson	43
Toshiba	38

63

Controlling the TV or the AV Receiver (Amplifier) with the Supplied Remote

When you set the TV/DVD switch to TV, you can control your TV using the keys below.

TV/DVD switch
Number buttons
-/--
I/① (POWER)
VOL**
PROG
TV/VIDEO
WIDE MODE
ENTER
TV/DVD*
ENTER
By pressing	You can
I/① (POWER)	Turn the TV on or off
TV/VIDEO	Select the input source for the TV between the TV and VCR
TV/DVD*	Select the input source for the TV between the TV and CD/DVD player
VOL**	Adjust the volume of the TV
PROG	Select the program position of the TV
WIDE MODE	Switch the wide picture on or off
Number buttons and ENTER	Select the program position of the TV

* If you connect the player to the TV via the EURO AV OUT connectors, the input source for the TV is set to the player automatically when you start playback or press any button. In this case, press TV/DVD to return the input to the TV.
**You can control the TV regardless of the position of the TV/DVD switch.

Notes
* Depending on the TV, you may not be able to control your TV or to use some of the buttons above.
* If you use number buttons to select program position of the TV, press -/-- followed by the number buttons for two-digit numbers.

Controlling an AV receiver (amplifier) with the remote

1 Slide TV/DVD switch to DVD.

2 Hold down I/① (POWER), and enter your AV receiver's manufacturer's code (see the table below) using the number buttons. Then release I/① (POWER).

Manufacturer	Code number
Sony	91(default), 86, 89
Denon	84, 85, 86
Kenwood	92, 93
Onkyo	81, 82, 83
Pioneer	99
Sansui	87
Technics	97, 98
Yamaha	94, 95, 96

Code numbers of controllable receivers (amplifiers)
If more than one code number is listed, try entering them one at a time until you find the one that works with your receiver.

You can also change the sound volume of the AV receiver using AV VOL.

AV VOL

Notes
* Depending on the AV receiver (amplifier), you may not be able to control your AV receiver (amplifier).
* You can control the AV receiver (amplifier) regardless of the position of the TV/DVD switch.

64

Self-diagnosis function

When the self-diagnosis function works to prevent the player from malfunctioning, a five-character service number (combination of a letter and digits) flashes on the screen. In this case, check the following table.

First three characters	Cause and/or Corrective Action
C13	• The disc is dirty. → Clean the disc with a cleaning cloth. (page 6)
C31	• The disc is not inserted correctly. → Open the disc tray and insert the disc correctly.
Exx (xx is any number)	• To prevent the player from malfunctioning, the self-diagnosis function has worked. → When you contact your Sony dealer or local authorized Sony service facility, give the 5-character service number. (example: E:61:10)

68

Language Code List

For details, see page 34, 52.

The language spellings conform to the ISO 639: 1988 (E/F) standard.

Code	Language	Code	Language	Code	Language	Code	Language
1027	Afar	1186	Scots Gaelic	1350	Malayalam	1513	Siswati
1028	Abkhazian	1194	Galician	1352	Mongolian	1514	Sesotho

72

Index to Parts and Controls

Refer to the pages indicated in parentheses for details.

Front Panel
1 ▣ (remote sensor) (7)
Accepts the remote control signals.

2 I/① (POWER) button and indicator (17)
Turns on and off the power of the player.

3 VIRTUAL 3D SURROUND button/indicator (37)
Selects the item of "VIRTUAL 3D SURROUND." Each time you press the button, the item changes. When you do not set "VIRTUAL 3D SURROUND" to "OFF," the indicator lights up.

4 SHUFFLE button (40)
Displays the "SHUFFLE" display on the TV screen.

5 MULTICHANNEL indicator (36)
Lights up as follows:
– playing back multichannel surround sound such as Dolby Digital (AC-3) soundtrack and MPEG soundtrack
– the disc is not inserted

6 Disc tray (17)
Place a disc on the tray.

7 ▲OPEN/CLOSE button (17)
Opens or closes the disc tray.

8 ⊕/⊖ SEARCH buttons (19)
Press to locate a scene.

9 |◀◀/▶▶| PREV/NEXT (DIRECT SEARCH dial) button (18)
Turn to select a chapter or track, and then press to go back to the selected chapter or track.

10 Click shuttle (19)
Changes the playback speed.

11 ◀─/↑/↓/─▶/ ENTER button
Selects and executes the items or settings.

12 JOG button / indicator (19)
Press to play a disc frame by frame.

13 PHONES connector (17)
Connect the headphones to this connector.

14 PHONE LEVEL control (17)
Adjusts the headphone volume.

15 PROGRAM button (38)
Displays the "PROGRAM" display on the TV screen.

16 Front Panel Display (23)
Indicates the playing time, etc.

17 REPEAT button (41)
Displays the "REPEAT" display on the TV screen.

18 CLEAR button (39, 40, 41)
Press to return to the continuous play, etc.

19 ▷PLAY button (17)
Plays a disc.

20 ‖PAUSE button (18)
Pauses playing a disc.

21 ■STOP button (18, 20)
Stops playing a disc.

22 TITLE button (21)
Displays the title menu on the TV screen.

23 DVD MENU button (21)
Displays the DVD menu on the TV screen.

24 ♂ RETURN button (22, 26)
Press to return to the previously selected screen, etc.

73

Rear Panel
1 **EURO AV 1 (RGB)-TV connector (8, 54)**
Connects to the TV with EURO AV connector to
output the signal from the player. You can select the
video signals, the S VIDEO signals or the RGB signals
as output signal format. Choose the appropriate one.
(page 54)

2 **EURO AV 2 connector (8)**
Connects to the video equipment with EURO AV
connector to input the signal from the equipment.

3 **AUDIO OUT connectors (9, 12)**
Connects to the audio input connector on the TV or
receiver (amplifier).

4 **5.1CH OUTPUT connectors (15)**
Connects to a receiver (amplifier) having 5.1 channel
input connectors.

5 **DIGITAL OUT (OPTICAL) connector (13)**
Connects to an audio component using the optical
digital connecting cord.

6 **DIGITAL OUT (COAXIAL) connector (13)**
Connects to an audio component using the coaxial
digital connecting cord.

7 **VIDEO OUT connectors (8)**
Connects to the video input connector on the TV or
monitor.

8 **S VIDEO OUT (1, 2) connectors (8, 12)**
Connects to the S video input connector on the TV or
VCR.

9 **COMPONENT VIDEO OUT connectors (9)**
Connects to a monitor or projector having component
video input connectors (Y, CB/B-Y, CR/R-Y) that
conform to output signals from the player.

74

Remote
1 **TV/DVD switch (63)**
Selects to control the player or the TV with the remote.

2 **≜OPEN/CLOSE button (17)**
Opens or closes the disc tray.

3 **Number buttons**
Selects the items or settings.

4 **CLEAR / –/– (ten's digit)button (39, 40, 41)**
Press to return to the continuous play etc.

5 **REPEAT button (41)**
Displays the "REPEAT" display on the TV screen.

6 **PROGRAM button (38)**
Displays the "PROGRAM" display on the TV screen.

7 **SHUFFLE button (40)**
Displays the "SHUFFLE" display on the TV screen.

8 **ANGLE button (35)**
Changes the angles when playing a DVD.

9 **AUDIO button (33)**
Changes the sound while playing a DVD or VIDEO
CD.

10 **SUBTITLE button (34)**
Displays the SUBTITLE menu in the Control Menu
display.

11 **I◄◄ /►►IPREV/NEXT buttons (18)**
Press to go to the next chapter or track or to go back to
the previous chapter or track.

12 **▷PLAY button (17)**
Plays a disc.

13 **⊖/⊕ (SEARCH) buttons (19)**
Press to locate a scene.

14 **DISPLAY button (25)**
Displays the Control Menu display on the TV screen
to set or adjust the items.

15 **TITLE button (21)**
Displays the title menu on the TV screen.

16 **DVD MENU button (21)**
Displays the DVD menu on the TV screen.

17 **Click shuttle (19)**
Changes the playback speed.

18 **◄—/↑/↓/—►/ ENTER button**
Selects and executes the items or settings.

19 **SET UP button (49)**
Displays the setup display on the TV screen to set or
adjust the items.

20 **I/Ü (POWER) button (17)**
Turns on and off the power of the player and TV.

21 **TV operation buttons (63, 64)**
Controls TVs.

22 **TIME/TEXT button (23)**
Displays the playing time of the disc, etc., on the front
panel display.

23 **INPUT button (32)**
Press when labeling a disc.

24 **ENTER button**
Executes the items or settings.

25 **PICTURE MEMORY button (54)**
Press to store a picture in memory.

26 **TV/DVD button (64)**
Press to select the input source for the TV between the
TV and CD/DVD player.

27 **BOOK MARK button (48)**
Press to set a bookmark.

28 **AV VOL button (64)**
Change the sound volume of the AV receivers
(amplifiers).

29 **■STOP button (18, 20)**
Stops playing a disc.

30 **IIPAUSE button (18)**
Pauses playing a disc.

31 **JOG button / indicator (19)**
Press to play a disc frame by frame.

32 **♂RETURN button (22, 26)**
Press to return to the previously selected screen, etc.

75

SECTION 2
DISASSEMBLY

Note: Follow the disassembly procedure in the numerical order given.

2-1. CASE REMOVAL

④ Case

② Two screws

① Three screws

③ Two screws

2-3. POWER BLOCK REMOVAL

② Connector (CN101)

③ Three connectors (CN201, 202, 203)

① Connector (CN102) (S725D)

④ Four screws (B3)

⑤ Power block

2-2. MB-85 BOARD REMOVAL

④ Two flat cables (CN004, 007)

⑤ Flat cable (CN005)

② Two flat cables (CN002, 003)

③ Connector (CN001)

⑦ Four screws (B3)

① Connector (CN011)

⑥ Flat cable (CN006)

⑧ MB-85 board

2-4. ER-4/5 BOARD REMOVAL

① Two flat cables (CN901, 902)

③ ER-4 board (S525D)
ER-5 board (S725D)

② Four screws (B3)
2-5. AU-209 BOARD REMOVAL (S525D)
④ Flat cable (CN302)

⑦ Three screws (B3)

② Connector (CN401)

③ Flat cable (CN301)

⑧ AU-209 board

⑤ Five screws (B3)

① Connector (CN201)

⑥ Two screws (B3)

2-6. AU-211 BOARD REMOVAL (S725D)

⑥ Three screws (B3)

② Connector (CN401)

③ Two connectors (CN301, 404)

④ Three flat cables (CN402, 403, 405)

⑦ AU-211 board

⑤ Nine screws (B3)

① Connector (CN407)

2-7. TRAY COVER REMOVAL

④ Tray cover

③ Two claws

Ⓑ

② Pull the tray in the direction of the arrow Ⓑ.

Ⓐ

① Insert a tapering driver into the aperture of the unit bottom, and move the lever of chuck cam in the direction of the arrow Ⓐ.

2-8. FRONT PANEL REMOVAL

④ Screw (B3)

② Connector (CN701)

⑥ Boss

⑤ Two screws (B3)

① Connector (CN203)

⑦ Boss

⑨ Claw

⑩ Front panel

③ Flat cable (CN006)

⑧ Claw

SECTION 4
PRINTED WIRING BOARDS AND SCHEMATIC DIAGRAMS

THIS NOTE IS COMMON FOR PRINTED WIRING BOARDS AND SCHEMATIC DIAGRAMS.
(In addition to this, the necessary note is printed in each block)

For printed wiring boards:
- ○——— : indicates a lead wire mounted on the component side.
- ●——— : indicates a lead wire mounted on the printed side.
- ○ : Through hole.
- ▨ : Pattern from the side which enables seeing.

(The other layers' patterns are not indicated)

Caution:
Pattern face side: Parts on the pattern face side seen from
(Side B)   the pattern face are indicated.
Parts face side: Parts on the parts face side seen from
(Side A)   the parts face are indicated.

For schematic Diagram:
- Caution when replacing chip parts.
  New parts must be attached after removal of chip.
  Be careful not to heat the minus side of tantalum capacitor, because it is damaged by the heat.
- All resistors are in ohms, $1/4$ W (Chip resistors : $1/10$ W) unless otherwise specified.
  $k\Omega$: 1000 Ω, $M\Omega$: 1000 $k\Omega$.
- All capacitors are in μF unless otherwise noted.   pF : $\mu\mu$F 50V or less are not indicated except for electrolytics and tantalums.
- All variable and adjustable resistors have characteristic curve B, unless otherwise noted.
- ⊞ : nonflammable resistor.
- ⊞ : fusible resistor.
- ▢ : panel designation.
- △ : internal component.
- ▢ : adjustment for repair.
- B+ : B+ Line.
- B– : B– Line.
- Circled numbers refer to waveforms.
- Voltages are dc between measurement point.
- Readings are taken with a color-bar signals on DVD reference disc and when playing CD reference disc.
- Readings are taken with a digital multimeter (DC 10MΩ).
- Voltage variations may be noted due to normal production tolerances.

Note: The components identified by mark ⚠ or dotted line with mark ⚠ are critical for safety. Replace only with part number specified.

When indicating parts by reference number, please include the board name.

97	PB1	O	Chip select signal to IF CON
98	PB2	O	Chip select signal to DAC (Lt and Rt)
99	PB3	O	Chip select signal to DAC (L and R)
100	PB4	O	DVD/CD select ("H": 44.1kHz "L": 48kHz)

SECTION 6
TEST MODE

6-1. GENERAL DESCRIPTION

The Test Mode allows you to make diagnosis and adjustment easily using the remote commander and monitor TV. The instructions, diagnostic results, etc. are given on the on-screen display (OSD).

6-2. STARTING TEST MODE

Press TITLE, CLEAR, POWER buttons on the remote commander in this order with the power of main unit in OFF status, and the Test Mode starts, then the menu shown below will be displayed on the TV screen. At the bottom of menu screen, the model name and revision number are displayed.
To execute each function, select the desired menu and press its number on the remote commander.
To exit from the Test Mode, press the POWER button.

```
Test Mode Menu

0. Syscon Diagnosis
1. Drive Auto Adjustment
2. Drive Manual Operation
3. Mecha Aging
4. Emergency History
5. Version Information
6. Video Level Adjustment
Exit: Power Key
_
Model   : DPX12xxxx
Revision: 1.xxxx
```

6-3. SYSCON DIAGNOSIS

The same contents as board detail check by serial interface can be checked from the remote commander.
On the Test Mode Menu screen, press 0 key on the remote commander, and the following check menu will be displayed.

```
    ### Syscon Diagnosis ###
          Check Menu
0. Quit
1. All
2. Version
3. Peripheral
4. Servo
5. Supply
6. AV Decoder
7. Video
8. Audio
_
```

0. Quit

Quit the Syscon Diagnosis and return to the Test Mode Menu.

1. All

All items continuous check
This menu checks all diagnostic items continuously. Normally, all items are checked successively one after another automatically unless an error is found, but at a certain item that requires judgment through a visual check to the result, the following screen is displayed for the key entry.

```
    ### Syscon Diagnosis ###

Diag All Check
No. 2 Version

 2-3. ROM Check Sum
Check Sum = xxxx

Press NEXT Key to Continue
Press PREV Key to Repeat
_
```

For the ROM Check, the check sum calculated by the Syscon is output, and therefore you must compare it with the specified value for confirmation.
Following the message, press NEXT key to go to the next item, or PREV key to repeat the same check again. To quit the diagnosis and return to the Check Menu screen, press STOP or ENTER key. If an error occurred, the diagnosis is suspended and the error code is displayed as shown below.

```
    ### Syscon Diagnosis ###

 3-3. EEPROM Check
Error 03: EEPROM Write/Reed N
Address    : 00000001
Write Data : 2492
Read Data  : 2490
Press NEXT Key to Continue
Press PREV Key to Repeat
_
```

Press STOP key to quit the diagnosis, or PREV key to repeat the same item where an error occurred, or NEXT key to continue the check from the item next to faulty item.

Subnemu

Selecting 2 and subsequent items calls the submenu screen of each item.
For example, if "5. Supply" is selected, the following submenu will be displayed.

```
    ### Syscon Diagnosis ###
          Check Menu
          No. 5 Supply
0. Quit
1. All
2. ARP Register Check
3. ARP to RAM Data Bus
4. ARP to RAM Address Bus
5. ARP RAM Check
_
```

0. Quit

Quit the submenu and return to the main menu.

1. All

All submenu items continuous check
This menu checks 2 and subsequent items successively. At the item where visual check is required for judgment or an error occurred, the checking is suspended and the message is output for key entry.

Normally, all items are checked successively one after another automatically unless an error is found.
Selecting 2 and subsequent items executes respective menus and outputs the results.
For the contents of each submenu, see "Check Items List".

General Description of Checking Method

2. Version

(2-2) Revision
ROM revision number is displayed.
Error: Not detected.
The revision number defined in the source file of ROM (IC206) is displayed with four digits.

(2-3) ROM Check Sum
Check sum is calculated.
Error: Not detected.
The 8-bit data are added at addresses 0x000F0000 ~ 0x002EFFFF of ROM (IC206) and the result is displayed with 4-digit hexadecimal number. Error is not detected. Compare the result with the specified value.

(2-4) Model Type
Model code is displayed.
Error: Not detected.
The model code read from EEPROM (IC201) is displayed with 2-digit hexadecimal number.

	Model Type	
DVP-S525D	2	3
DVP-S725D	4	3

(2-5) Region
Region code is displayed.
Error: Not detected.
The region code determined from the model code is displayed.

3. Peripheral

(3-2) Gate Array Check
Data write → read, and accord check
Error 02: Gate array write/read discord
Data 0x00~0xFF are written to the address 0xF of GA (IC601), then read and checked if they accord.

(3-3) EEPROM Check
Data write → read, and accord check
Error 03: EEPROM write/read discord
Data 0x9249, 0x2942, 0x4294 are written to addresses 0x00~0xFF of EEPROM (IC201), then read and checked. Before writing, the data are saved, then after checking, they are written to restore the contents of EEPROM.

(3-4) NAND Flash Check
Data clear → write → read, and accord check
This check is conducted to the DVP-S725D only.
Error 04: Clear error
         05: Write error
         06: Read data discord
         21: Faulty blocks exceed 10
The data clear, write, read, and check are executed to the block 0 of Flash memory (IC602).
In case of a faulty block, its address is displayed.
An error is output if faulty blocks exceed 10.

4. Servo

(4-2) Servo DSP Check
Data write → read, and accord check
Error 12: Read data discord
Data 0x9249, 0x2942, 0x4294 are written to the address 0x602 of RAM in the Servo DSP (IC701), then read and checked.

(4-3) DSP Driver Test
Test signal data → DSP Driver
Error: Not detected.

Caution: Do not conduct this test with a mechanical deck connected.

The maximum voltage is applied to the Servo Driver IC (IC801, IC802). If mechanical deck is connected, the motor and optics could be damaged. Disconnect mechanical deck following the output message, then enter specified 4- or 5-digit number from the remote commander, and press the ENTER. The test is conducted only when the input data accord. Check the output level, then press the NEXT to finish the test.
This test is skipped if "All" is selected.

Supplement: How to disconnect mechanical deck
Disconnect flat cables connected to the CN002 and CN003 of MB-85 board. Also, disconnect harness from the CN011.

5. Supply

Caution: Do not conduct this check with a mechanical deck connected.
An access is made to the stream supply and servo control IC (IC303) and external RAM (IC304) using check data. If mechanical deck is connected, the motor and optics could be damaged. This check is also executed by the "All" menu item.

Supplement: How to disconnect mechanical deck
Disconnect flat cables connected to the CN002 and CN003 of MB-85 board. Also, disconnect harness from the CN011.

(5-2) ARP Register Check
Data write → read, and accord check
Error 08: ARP register write, and read data discord
Data 0x00 to 0xFF are written to the TMAX register (address 0xC6) in ARP (IC303), then they are read and checked.

(5-3) ARP to RAM Data Bus
Data write → read, and accord check
Error 09: ARP ←→ RAM data bus error
Data 0x0001 to 0x8000 where one bit each is set to 1 are written to the address 0 of RAM (IC304) connected to the ARP (IC303) through the bus, then they are read and checked. In case of discord, written bit pattern and read data are displayed. If data where multiple bits are 1 are read, the bits concerned may touch each other. Further, if data where certain bit is always 1 or 0 regardless of written data, the line could be disconnected or shorted.

(5-4) ARP to RAM Address Bus
Data write → other address read discord check
Error 10: ARP → RAM address bus error
Caution: Address and data display in case of an error is different from the display of other diagnosis (described later).
Before starting the test, all addresses of RAM (IC304) are cleared to 0x0000.
First, 0xA55A is written to the address 0x00000, and the address data are read and checked from addresses 0x00001 to 0x80000 while shifting 1 bit each. Next, the data at that address is cleared, and it is written to the address 0x00001, and read and checked in the same manner. This check is repeated up to the address 0x80000 while shifting the address data by 1 bit each.
If data other than 0 is read at the addresses except written address, an error is given because all addresses were already cleared to 0. In this check, the error display pattern is different from that of other diagnosis; read data, written address, and read address are displayed in this order. However, the message uses same template, and accordingly exchange Address and Data when reading. The following display, for example,

```
    ### Syscon Diagnosis ###

 5-4. ARP to RAM Address Bus
Error 10: ARP - RAM Address B
Address    : 0000A55A
Write Data : 00000000
Read Data  : 00080000
Press NEXT Key to Continue
Press PREV Key to Repeat
_
```

shows the data 0xA55A was read from address 0x00080000 though it was written to the address 0x00000000. This implies that these addresses are in the form of shadow. Also, if the read data is not 0xA55A, another error will be present.

(5-5) ARP RAM Check
Data write → read, and accord check
Error 11: ARP RAM read data discord
The program code data stored in ROM are copied to all areas of RAM (IC304) connected to the ARP (IC303) through the bus, then they are read and checked if they accord. If the detail check was selected initially, the data are written to all areas and read, then the same test is conducted once again with the data where all bits are inverted between 1 and 0. If discord is detected, faulty address, written data, and read data are displayed following the error code 11, and the test is suspended.

6. AV Decoder

(6-2) 1930 RAM
Data write → read, and accord check
Error 13: AVD RAM read data discord
The program code data stored in ROM (IC206) are copied to all areas of RAM (IC402, IC403) connected to the AVD (IC401) through the bus, then they are read and checked if they accord. Further, the same test is conducted once again with the data where all bits are inverted between 1 and 0. If discord is detected, faulty address, written data, and read data are displayed following the error code 13, and the test is suspended.

(6-3) 1930 SP
ROM → AVD RAM → Video OUT
Error: Not detected.
The data including sub picture streams in ROM (IC206) are transferred to the RAM (IC402, IC403) in AVD (IC401), and output as video signals from the AVD (IC401).
They are output from all video terminals (Composite, Y/C, Component) except EURO AV terminal.

7. Video

(7-2) Color Bar
AVD color bar command write → Video OUT
Error: Not detected.
The command is transferred to the AVD, and the color bar signals are output from video terminals.
They are output from all video terminals (Composite, Y/C, Component) except EURO AV terminal.

(7-3) Composite Out
EURO-AV Composite video output check
AVD color bar command write → Video (EURO-AV Composite) OUT
Error: Not detected.
With the Component of video output turned off, the color bar signals are output from the EURO-AV terminal.

(7-4) Y/C Out
EURO-AV Y/C video output check
AVD color bar command write → Video (EURO-AV Y/C) OUT
Error: Not detected.
With the Y/C of video output turned on, the color bar signals are output from the EURO-AV terminal.

(7-5) RGB Out
EURO-AV RGB video output check
AVD color bar command write → Video (EURO-AV RGB) OUT
Error: Not detected.
With the RGB of video output turned on, the color bar signals are output from the EURO-AV terminal.

(7-6) Component Out
EURO-AV Component video output check
AVD color bar command write → Video (EURO-AV Component) OUT
Error: Not detected.
With the Component of video output turned on, the color bar signals are output from the EURO-AV terminal.

(7-7) Euro AV Through
Euro-AV2 input check.
Check video and audio signal pass through from Euro-AV2 to Euro-AV1.
Error: Not detected.

8. Audio

(8-2)   ARP → 1930
          Error 14 : ARP → 1930 video NG
                  15 : ARP → 1930 audio NG

(8-3)   Test Tone
          A pink noise signal is output from the AVD (IC401) through
          optical coaxial digital terminal and analog audio terminal.
          Error: Not detected.
          All channels → 2ch Left → 2ch Right → Front Left →
          Front Right → Rear Left → Rear Right → Center → Sub
          Woofer are checked in this order.
          Caution: Sub Woofer is checked only for low-frequency
                   components, and no sound will be heard unless a
                   proper super woofer is connected.

        Adjustment Menu

0.  ALL
1.  DVD-SL
2.  CD
3.  DVD-DL
4.  SACD

                    Exit: RETURN
```

Normally, ☐0 is selected to adjust DVD (single layer), CD, DVD (dual layer), and SACD in this order. But, individual items can be adjusted for the case where adjustment is suspended due to an error. In this mode, the adjustment can be made easily through the operation following the message displayed on the screen.
The disc used for adjustment must be the one specified for adjustment. However, for SACD disc, use the player with initial data if the disc is not available.

0. ALL
Select ☐0 and press ENTER key, and the servo set data in EEPROM will be initialized. Then, 1. DVD-SL disc, 2. CD disc, 3. DVD-DL disc, and 4. SACD disc are adjusted in this order. Each time one disc was adjusted, it is ejected. Replace it with the specified disc following the message. Though the message to confirm whether discs other than SACD disc are adjusted is not displayed, you can finish the adjustment if pressing the STOP button. During adjustment of each disc, the measurement for disc type judgment is made. As automatic adjustment does not judge the disc type unlike conventional models, take care not to insert wrong type discs. Also, do not give a shock during adjustment.

1. DVD-SL (single layer)
Select ☐1, insert DVD single layer disc, and press ENTER key, and the adjustment will be made through the following steps, then adjusted values will be written to the EEPROM.

DVD Single Layer Disc Adjustment Steps
1.   SLED TILT Reset
2.   Disc Check Memory SL
3.   Wait 300 msec
4.   Set Disc Type SL
5.   LD ON
6.   Spdl Start
7.   Wait 1 sec
8.   Focus Servo ON 0
9.   Auto Track Offset Adjust
10. CLVA ON
11. Wait 500 msec
12. Tracking ON
13. Wait 1 sec
14. Sled ON
15. Check CLV Lock
16. Auto LFO Adjust

26. 500Tj Rev

27. All Servo Stop

6-5. DRIVE MANUAL OPERATION

On the Test Mode Menu screen, select $\boxed{2}$, and the manual operation menu will be displayed. For the manual operation, each servo on/off control and adjustment can be executed manually.

```
 ## Drive Manual Operation ##

        Operation Menu
1. Disc type
2. Servo Control
3. Track/Layer Jump
4. Manual Adjustment
5. Auto Adjustment
6. Memory Check

0. Disc Check Memory

              Exit: Return
```

In using the manual operation menu, take care of the following points. These commands do not provide protection, thus requiring correct operation. The sector address or time code field is displayed when a disc is loaded.

1. Set correctly the disc type to be used on the Disc Type screen.
   The disc type must be set after a disc was loaded.
   The set disc type is cleared when the tray is opened.
2. After power ON, if the Drive Manual Operation was selected, first perform "Reset SLED TILT" by opening 1. Disc Type screen.
3. In case of an alarm, immediately press the $\boxed{\text{STOP}}$ button to stop the servo operation, and turn the power OFF.

Basic operation (controllable from front panel or remote commander)

$\boxed{\text{POWER}}$	Power OFF
$\boxed{\text{STOP}}$	Servo stop
$\boxed{\text{OPEN/CLOSE}}$	Stop+Eject/Loading
$\boxed{\text{RETURN}}$	Return to Operation Menu or Test Mode Menu
$\boxed{\text{NEXT}}$, $\boxed{\text{PREV}}$	Transition between sub modes of menu
$\boxed{1}$ to $\boxed{9}$, $\boxed{0}$	Selection of menu items
Cursor UP/DOWN	Increase/Decrease in manually adjusted value

0. Disc Check Memory

```
            Disc Check

1. SL Disc Check
2. CD Disc Check
3. DL Disc Check

0. Reset SLED TILT
```
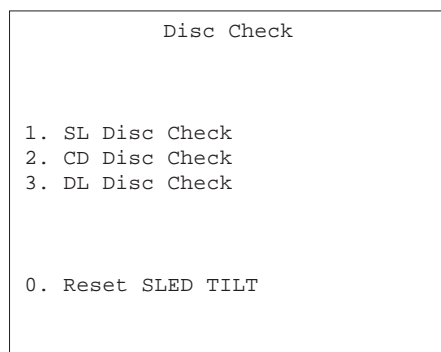

On this screen, the mirror time is measured to judge the disc and it is written to the EEPROM. First load DVD SL disc and press 1, next load CD disc and press 2, and finally load DVD DL disc and press 3.

The adjustment must be executed more than once after default data were written. External vibration or shock to the player must not be given. Reference value for DVD is from 10 to 20, and for CD, from 28 to 4F.

Check that the value of CD is larger than that of DVD.

When those values are beyond a range perform this adjustment again.

From this screen, you can go to another mode by pressing NEXT or PREV key, but you cannot enter this mode from another mode. You can enter this mode from the Operation Menu screen only.

1. Disc Type

```
            Disc Type
1. Disc Type Auto Check
2. DVD SL   12 cm
3. DVD DL   12 cm
4. CD       12cm
5. SACD     12 cm
6. DVD SL   8 cm
7. DVD DL   8 cm
8. CD       8 cm
9. SACD     8 cm
0. Reset SLED TILT
                      EMG. 00
```
On this screen, select the disc type. To select the disc type, press the number of the loaded disc. The selected disc type is displayed at the bottom. Selecting 1 automatically selects and displays the disc type. In case of wrong display, retry "Disc Check Memory". Also, opening the tray causes the set disc type to be cleared. In this case, set the disc type again after loading.

In performing manual operation, the disc type must be set.

Once the disc type has been selected, the sector address or time code display field will appear as shown below. These values are displayed when PLL is locked.

```
            Disc Type
1. Disc Type Auto Check
2. DVD SL   12 cm
3. DVD DL   12 cm
4. CD       12cm
5. SACD     12 cm
6. DVD SL   8 cm      ___
7. DVD DL   8 cm
8. CD       8 cm
9. SACD     8 cm
0. Reset SLED TILT
      SA.       SI.    EMG. 00
DVD SL 12 cm
```
Display when DVD SL 12cm disc was selected

```
            Disc Type
1. Disc Type Auto Check
2. DVD SL   12 cm
3. DVD DL   12 cm
4. CD       12cm
5. SACD     12 cm
6. DVD SL   8 cm
7. DVD DL   8 cm
8. CD       8 cm
9. SACD     8 cm
0. Reset SLED TILT
      TC.——:——:—— EMG. 00
CD   12 cm
```
Display when CD 12cm disc was selected

0 Reset SLED TILT   Reset the Sled and Tilt to initial position.

1 Disk Type Check   Judge automatically the loaded disc. As the judged result is displayed at the bottom of screen, make sure that it is correct.
If Disc Check Memory menu has not been executed after EEPROM default setting, the disc type cannot be judged. In this case, return to the initial menu and make a check for three types of discs (SL, DL, CD).

2 to 9   Select the loaded disc. The adjusted value is written to the address of selected disc. No further entry is necessary if 1 was selected.

2. Servo Control

```
          Servo Control
1. LD          Off R.Sled FWD
2. SP          Off L.Sled REV
3. Focus       Off
4. TRK.        Off
5. Sled        Off
6. CLVA        Off
7. FCS. Srch Off

0. Reset SLED TILT
      SA. ——— SI. —— EMG. 00
DVD SL 12 cm
```
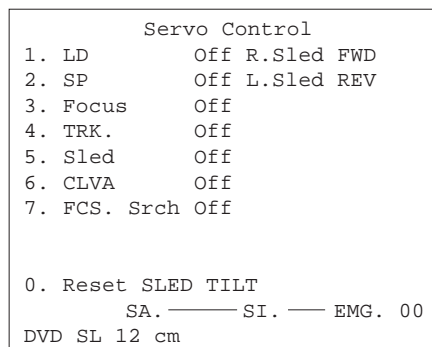

On this screen, the servo on/off control necessary for replay is executed. Normally, turn on each servo from 1 sequentially and when CLVA is turned on, the usual trace mode becomes active. In the trace mode, DVD sector address or CD time code is displayed. This is not displayed where the spindle is not locked.

The spindle could run overriding the control if the spindle system is faulty or RF is not present. In such a case, do not operate CLVA.

[0]	Reset SLED TILT	Reset the Sled and Tilt to initial position.
[1]	LD	Turn ON/OFF the laser.
[2]	SP	Turn ON/OFF the spindle.
[3]	Focus	Search the focus and turn on the focus.
[4]	TRK	Turn ON/OFF the tracking servo.
[5]	Sled	Turn ON/OFF the sled servo.
[6]	CLVA	Turn ON/OFF normal servo of spindle servo.
[7]	FCS. Srch	Apply same voltage as that of focus search to the focus drive to check the focus drive system.
[→]	Sled FWD	Move the sled outward. Perform this operation with the tracking servo turned off.
[←]	Sled REV	Move the sled inward. Perform this operation with the tracking servo turned off.
[↑]	Tilt UP	Move the tilt upward.
[↓]	Tilt DOWN	Move the tilt downward.

The following menus are normally not used.

3. Track/Layer Jump
4. Manual Adjustment
5. Auto Adjustment

The persons who do not know well about these menus should not use them.

6. Memory Check

```
EEPROM DATA
                 CD      - DVD -
ID No. 00      SACD    SL  L0  L1
Focus Gain   xx xx    xx  xx  xx
TRK. Gain    xx xx    xx  xx  xx
Focus Offset xx xx    xx  xx  xx
TRK. Offset  xx xx    xx  xx  xx
L. F. Offset xx xx    xx  xx  xx
EQ Boost     xx xx    xx  xx  xx
Jitter       xx xx    xx  xx  xx
Mirror Time  xx xx    xx  xx  xx
_
CLEAR: Default Set
```

This screen displays current servo adjusted data stored in the EEPROM. Though adjusted data can be initialized with the CLEAR key, they cannot be restored after initialization.
So, before clearing, make a note of the adjusted data.
For reference, the drive has been designed so that the gain center value is 20 and offset value is 80. Other values will be in a range of 10 to 80. If extreme value such as 00 or FF is set, adjustment will be faulty. In such a case, check for disc scratch or cable disconnection, then perform adjustment again.

6-6. MECHA AGING

```
        ### Mecha Aging ###

Press OPEN key

Abort: STOP key

```

On the Test Mode Menu screen, selecting [3] executes the aging of mechanism. First, open the tray and load a disc. Press the PLAY key, and the aging will start. When the tray is closed, the disc type and size are judged and displayed. During aging, the repeat cycle is displayed. Aging can be aborted at any time by pressing the STOP key. After the operation has stopped, unload the disc and press again the STOP key or the RETURN key to return to the Test Mode Menu.

6-7. EMERGENCY HISTORY

```
     ### MEG. History ###

Laser Hours    CD   xxxxxxxh
               DVD  xxxxxxxh

1. 00 00 00 00  00 00 00 00
   00 00 00 00  00 00 00 00

2. 00 00 00 00  00 00 00 00
   00 00 00 00  00 00 00 00

Select: 1 - 9   Scroll: UP/DOWN
(1: Last EMG.)  Exit: Return
```

On the Test Mode Menu screen, selecting [4] displays the information such as servo emergency history. The history information from last 1 up to 10 can be scrolled with [↑] key or [↓] key. Also, specific information can be displayed by directly entering that number with ten keys.

The upper two lines display the laser ON total hours. Data below minutes are omitted.

Clearing History Information
    Clearing laser hours
◎ Press DISPLAY and CLEAR keys in this order.
    Both CD and DVD data are cleared.
    Clearing emergency history
◎ Press TITLE and CLEAR keys in this order.
    Initializing set up data
◎ Press DVD and CLEAR keys in this order.
    The data have been initialized when "Set Up Initialized" message is displayed. The EMG. History screen will be restored soon.

How to see Emergency History
①: Emergency Code
②: Don't Care
    These codes are used for verification of software designing.
③: Historical order 1 to 9

Emergency Codes List

10: Communication to IC001 (TK-54 board) failed.
11: Each servo for focus, tracking, and spindle is unlocked.
12: Communication to EEPROM, IC201 (MB-85 board) failed.
13: Writing of hours meter data to EEPROM, IC201 (MB-85 board) failed.
14: Communication to Servo DSP IC701 (MB-85 board) failed, or Servo DSP is faulty.
20: Initialization of tilt servo and sled servo failed. They are not placed in the initial position.
21: Tilt servo operation error
22: Syscon made a request to move the tilt servo to wrong position.
23: Sled servo operation error
24: Syscon made a request to move the sled servo to wrong position.
30: Tracking balance adjustment error
31: Tracking gain adjustment error
32: Focus balance adjustment error
33: Focus bias adjustment error
34: Focus gain adjustment error
35: Tilt servo adjustment error
36: RF equalizer adjustment error
37: RF group delay adjustment error
38: Jitter value after adaptive servo operation is too large.
40: Focus servo does not operate.
41: With a dual layer (DL) disc, focus jump failed.50: CLV (spindle) servo does not operate.
51: Spindle does not stop.
60: With a DVD disc, Syscon made a request to seek nonexistent address.
61: With a CD disc, Syscon made a request to seek nonexistent address.
62: With a CD disc, Syscon made a request to seek nonexistent track No. and index No.
63: With a DVD disc, seeking of target address failed.
64: With a CD disc, seeking of target address failed.
65: With a CD disc, seeking of target index failed.
70: With a DVD disc, physical information data could not be read.
71: With a CD disc, TOC data could not be read.
80: Disc type judgment failed.
81: As disc type judgment failed, retry was repeated.
82: As disc type judgment failed, a measurement error occurred.
83: Disc type could not be judged within the specified time.
84: Illegal command code was received from Syscon.
85: Illegal command was received from Syscon.

6-8. VERSION INFORMATION

```
   ## Version Information ##

IF con.    Ver. x. xxx (xxxx)
           Group    00

SYScon.    Ver. x. xxx (xxxx)
           Model    xx
           Region   0x
           SW1      ??
           SW2      ??

Exit: RETURN
```

On the Test Mode Menu screen, selecting 5 displays the ROM version and region code.
The parenthesized hexadecimal number in version field is checksum value of ROM.

6-9. VIDEO LEVEL ADJUSTMENT

On the Test Mode Menu screen, selecting 6 displays color bars for video level adjustment. During display of color bars, OSD disappears but the menu screen will be restored if pressing any key.

Measurement point   : LINE OUT VIDEO
                        (75 Ω terminating resistance)
Measuring instrument : Oscilloscope
Adjustment device   : RV401 on MB-85 board
Specified value   : 1.0 ± 0.02 Vp-p

1.0 ± 0.02 Vp-p
6-10. IF CON SELF DIAGNOSTIC FUNCTION

1. FRONT BOARD TEST MODE

The front board test mode is the IF CON self diagnostic mode. The IF CON can diagnose the functions of the front panel boards that the IF CON controls. Normally, the IF CON makes a serial communication with the SYSTEM CONTROL and operates following thecommands from the SYSTEM CONTROL, but in the Test mode, the IF CON operates independently from the SYSTEM CONTROL.

In the Test mode, the following functions can be checked.
1. Button function
2. Remocon receiving function
3. SYSTEM CONTROL-IF CON serial communication
4. Direct search dial function
5. Click shuttle function
6. Fluorescent display tube lighting check
   Grid check
   Anode check
7. LED control function

In the Test mode, the set operates same as usual, except voltage monitoring, communication monitoring, display of fluorescent display tube, and LED control.
1. The routine that monitors +3.3 V (PCONT) of MB-85 board is not provided.
2. The monitoring timer for serial communication with the SYSTEM CONTROL is not provided. The set is not placed in the Standby mode, even if the communication with SYSTEM CONTROL is normal.
3. Display of fluorescent display tube (normally, display is made following the commands from SYSTEM CONTROL)
4. LED control (normally, control is made following the commands from SYSTEM CONTROL)

2. HOW TO ENTER THE TEST MODE

The set must be placed in the Standby mode (red LED lights up). In the Standby mode, press the ⌐SET UP⌐ key on the Remocon while pressing simultaneously the ⌐RETRUN⌐ button and ⌐STOP⌐ button on the set, so that the set enters the Test mode.

When the Test mode becomes active, the automatic display sequence of the FL display tube starts.
1. LEDs and FL display tube all light up for about 5 seconds.
2. Then, the prototypical model name is displayed.
   (This model name is a typical name of the series. As the button arrangement varies depending on the model, make sure the difference.)

Display	Model
DPX-1230	DVP-S525D
DPX-1226	DVP-S725D

3. Last updating date of the program is displayed.
   Example: 981211
4. Following the "GRID TEST" display, odd grids and even grids are blinking alternately (3 times).
5. Following the "ANODE TEST" display, even anodes and odd anodes are blinking alternately (3 times). For the FL display tube type A, even and odd numeric parts of music calendar are blinking alternately (3 times).
6. All light-up mode restores.

Steps 1 through 6 are repeated. (Refer to "FLD Auto Test Operation" on page 6-12)

3. HOW TO EXIT FROM THE TEST MODE

Press the ⌐POWER⌐ buttons on the set and Remocon, and the FL display tube turns off and the Standby mode is restored where only the red POWER LED lights up. This is the case where the SYSTEM CONTROL and IF CON are communicating normally. To forcibly activate the Standby mode, press the ⌐POWER⌐ button together with the ⌐STOP⌐ button.

FLD Auto Test Operation

The auto test starts when the $\boxed{\text{STOP}}$ and $\boxed{\text{RETURN}}$ buttons on the set and the $\boxed{\text{SET UP}}$ key on the Remocon are pressed at the power off.

① FLD all light up (5 sec)
② TEST START display (2 sec) This is not displayed after second and subsequent tests.
③ Model display (2 sec)
Note: Prototypical model name of the series is displayed.

④ Date display (2 sec) Program updating date is displayed.
⑤ GRID TEST start display (1 sec)
⑥ FLD odd grids light up (0.7 sec)

▷ ‖ ‖	◻◻ Digital	DISC	TITLE	CHAPTER	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 ▷

	SHUFFLE				
Note: Also, odd anodes of alphanumeric section light up.
Note: Displays of ⑨ and ⑩ are repeated three times.

⬇
Hence, the operations of ① through ⑩ arerepeated.
However, ② is not displayed after the second and subsequent tests.

4. DESCRIPTION OF IF CON FUNCTION CHECK MODE

1. Button Function

In the Test mode, press any button (except POWER button) on the set. This operation terminates the automatic display test mode of the FL display tube. During the time that the button is pressed, the function name of the pressed button is displayed on the FL display tube, and "NOTHING" is displayed if releasing the button. For the button names displayed, refer to the following table. For the illuminated button (LED built in), it turns on and off alternately each time it is pressed. For the multi-channel LED (blue LED), it blinks when the "RETURN" button is pressed because its dedicated button is not provided.

DVP-S525D:

	Input Voltage [V]	IC201: Pin No. (Signal)		
		Pin ⑥ (AN0)	Pin ⑤ (AN1)	Pin ④ (AN2)

5	2.41	ENTER	DVD MENU	SURROUND
6	2.92	↑	RETURN	
7	3.45	→	SEARCH-REV	
8	3.94	JOG	SEARCH-FWD	
9	4.52	ACS ENTER		

The direction buttons are used to enter special modes.

↑ : FL display tube grid check

↓ : LED check

← : Direct search dial check

→ : FL display tube anode check

The buttons are all checked with the voltage at the A/D port. The reference voltage of A/D port is ever 5V. The voltage is calculated at 10bit accuracy and evaluated whether same voltage can be obtained in two-time operations to eliminate the chattering.
For the button check by the IF CON, a dead zone is provided, and if voltage in the dead zone is entered, "IGNORE" is displayed.

2. Remocon Receiving Function

Upon reception of a code from the Remocon when "NOTHING" is displayed, the function name of Remocon code is displayed on the FL display tube. The codes that can be received are DVD category codes only. The "DISPLAY" on Remocon functions to change over the function name display and the code display. In the code display mode, "REM NO xx" is displayed. A xx part is the received code in Hex notation. It is FF when a Remocon code is not received.

3. SYSTEM CONTROL-IF CON Serial Communication

Normally, two-way communication at 24ms interval is made between IF CON and SYSTEM CONTROL. Whether this communication is carried out normally can be checked easily. When "NOTHING" is displayed, OFF display of "VIDEO CD", "DVD", and "CD" characters on the left side of FL display tube indicates that a serial communication with the SYSTEM CONTROL is carried out normally. ON display of these characters indicates that the communication with the SYSTEM CONTROL is not made. However, the communication is not made for several seconds after the Test mode became active (until MB-85 board is initialized), and these characters may turn on. This status is normal.

4. Direct Search Dial

The grid X part displays images that rotate. At the same time, the numbers on music calendar shift toward the direction in which the direct search dial was rotated.
(Though this is displayed on the models which do not have the dial, it does not function because of no dial.)

5. Click Shuttle

Whether the IF CON can judge the rotation of click shuttle is checked.In the following grid check and anode check, if the part that lights up is shifted as the click shuttle rotates, the function is normal.

6. Display of Fluorescent Display Tube

Use this mode when checking the FL display tube precisely, though the FL display tube is roughly checked in the auto display mode. Press simultaneously the STOP and PLAY buttons on the set, so that the FL display tube can all be lighted up.
(2G~12G)

7. Grid Check (↑ button: Grid Check Mode)

In this mode, arbitrary one grid of FL display tube lights up. (The anodes of the grid concerned all light up.) To shift the grids, use the click shuttle on the set. For the models not having the click shuttle, the DVD Remocon having the click shuttle can be used instead.

Staring from G1, rotate the click shuttle clockwise, and the grids shift such as G2, G3 .... G16. The grids return to G1 following G16.

During this mode, any one grid always lights up.

8. Anode Check (→ button: Anode Check Mode)

In this mode, arbitrary one anode of FL display tube lights up. (All grids of the anode concerned all light up.)
Staring from P1, rotate the click shuttle clockwise, and the anodes shift such as P2, P3 .... The anodes return to P1 following the last anode. During this mode, one anode of all grids always lights up. For the models not having the click shuttle, the DVD Remocon having the click shuttle can be used instead.

9. LED Control

In this mode, LEDs, one by one, light up by pressing the ↓ button. Rotating the click shuttle causes the LED that lights up to be shifted. For the illuminated buttons, the built-in LEDs turn on and off each time the buttons are pressed, independently from this mode.

5. TROUBLESHOOTING

1. Test Mode is not activated
With the set assembled in the front panel, the Test mode does not become active if any button was pressed by any reason. Under this condition, the power is not turned on even in the normal status. (The set is kept in Standby status = Red LED is kept on) Not only the buttons are inactive, but also a signal from Remocon is not accepted. To check this condition, with the self check port (pin 69 of IF CON) kept in "Low" status, supply the AC power, so that the Test mode is forcibly activated. On the board, short the lands where SELF is printed. The IF CON checks the self check port only after the power on reset (only when AC is supplied; not in Standby status). If any button was pressed, the button name should be displayed on the FL display tube. Though no button is pressed this time, display of other than NOTHING implies that the button was pressed. However, the set will go in Standby status immediately unless the FFC (pin 17) connected to the MB-85 board is disconnected in advance.

2. Power is not turned on
① Red (STANDBY) LED does not light up when AC was supplied. The power (EVER 5V) is not supplied.
X201 is oscillating.
Loose connection of the connector between FL board and FR board.

② Red (STANDBY) LED is kept on though POWER button was pressed. Any button is kept pressed.
PCHECK (IF CON pin 77) is over 0.1V.

③ Green LED lights up when POWER button was pressed, but red LED lights up again after several seconds. PCHECK (IF CON pin 77) is abnormal. (Slow rise time from 0.1V to 1.5V. Voltage must be less than 1.5V)
SYSTEM CONTROL does not operate normally.

SECTION 7
ELECTRICAL ADJUSTMENT

In making adjustment, refer to 7-3. Adjustment
Related Parts Arrangement.

Note: During diagnostic check, the characters and color bars can
be seen only with the NTSC monitor. Therefore, for diag-
nostic check, use the monitor that supports both NTSC and
PAL modes.
Use the reference disc for PAL for check, and use the refer-
ence disc for NTSC for adjustment.

This section describes procedures and instructions necessary for
adjusting electrical circuits in this set.

Instruments required:
1) Color monitor TV
2) Oscilloscope 1 or 2 phenomena, band width over 100 MHz,
with delay mode
3) Frequency counter (over 8 digits)
4) Digital voltmeter
5) Standard commander (RMT-D108P/D111P)
6) DVD reference disc
   HLX-501 (J-6090-071-A) (dual layer) (NTSC)
   HLX-503 (J-6090-069-A) (single layer) (NTSC)
   HLX-504 (J-6090-088-A) (single layer) (NTSC)
   HLX-505 (J-6090-089-A) (dual layer) (NTSC)
   HLX-506 (J-6090-077-A) (single layer) (PAL)
   HLX-507 (J-6090-078-A)(dual layer) (PAL)
7) SACD reference disc
   HLXA-509 (J-6090-090-A)

7-1. POWER SUPPLY ADJUSTMENT

1. HS-030SH Board

Mode	E-E
Instrument	Digital voltmeter
+5 V Check	
Test point	CN202 pin ⑤
Specification	5.0 ± 0.2 Vdc
+3.3 V Check	
Test point	CN202 pin ⑦
Specification	3.3 ± 0.2 Vdc
EVER+5 V Check	
Test point	CN203 pin ②
Specification	5.0 ± 0.2 Vdc
P_CONT Check	
Test point	CN203 pin ①
Specification	4V – 5 Vdc
A +12 V Check	
Test point	CN202 pin ①
Specification	$9.5\,^{+1.5}_{-0.5}$ Vdc
–12 V Check	
Test point	CN203 pin ⑤
Specification	–12.0 ± 1.0 Vdc
M +12 V Check	
Test point	CN202 pin ②
Specification	12.0 ± 1.0 Vdc

Checking method:
1) Confirm that each voltage satisfies the specification.

7-2. ADJUSTMENT OF VIDEO SYSTEM

1. Video Level Adjustment (MB-85 BOARD)

<Purpose>

This adjustment is made to satisfy the NTSC standard, and if not adjusted correctly, the brightness will be too large or small.

Mode	Video level adjustment in test mode
Signal	Color bars
Test point	LINE OUT (VIDEO) connector (75 Ω terminated)
Instrument	Oscilloscope
Adjusting element	RV401
Specification	1.0 ± 0.02 Vp-p

Adjusting method:

1) In the test mode initial menu "6" Video Level Adjustment, set so that color bars are generated.
2) Adjust the RV401 to attain 1.0 ± 0.02 Vp-p.

1.0 ± 0.02 Vp-p
Figure 7-1

2. S-terminal Output Check (MB-85 BOARD)

<Purpose>

Check S-terminal video output. If it is incorrect, pictures will not be displayed correctly in spite of connection to the TV with a S-terminal cable.

Mode	Video level adjustment in test mode
Signal	Color bars
Test point	S VIDEO OUT (S-Y) connector (75 Ω terminated)
Instrument	Oscilloscope
Specification	1.0 ± 0.1 Vp-p

Checking method:

1) In the test mode initial menu "6" Video Level Adjustment, set so that color bars are generated.
2) Confirm that the S-Y level is 1.0 ± 0.1 Vp-p.

1.0 ± 0.1 Vp-p

Figure 7-2

3. Checking Component Video Output B-Y (MB-85 BOARD) (DVP-S725D)

<Purpose>

This checks component video output B-Y. If it is incorrect, correct colors will not be displayed when connected to, for instance, projector.

Mode	Video level adjustment in test mode
Signal	Color bars
Test point	COMPONENT VIDEO OUT (B-Y) connector (75 Ω terminated)
Instrument	Oscilloscope
Specification	700 ± 70 mVp-p

Checking method:

1) Confirm that the B-Y level is 700 ± 70 mVp-p.

700 ± 70 mVp-p
Figure 7-3

4. Checking Component Video Output R-Y (MB-85 BOARD) (DVP-S725D)

<Purpose>

This checks component video output R-Y. If it is incorrect, correct colors will not be displayed when connected to, for instance, projector.

Mode	Video level adjustment in test mode
Signal	Color bars
Test point	COMPONENT VIDEO OUT (R-Y) connector (75 Ω terminated)
Instrument	Oscilloscope
Specification	700 ± 70 mVp-p

Checking method:

1) Confirm that the R-Y level is 700 ± 70 mVp-p.

700 ± 70 mVp-p

Figure 7-4

5. Checking Component Video Output Y (MB-85 BOARD) (DVP-S725D)

<Purpose>

This checks component video output Y. If it is incorrect, correct brightness will not be attained when connected to, for instance, projector.

Mode	Video level adjustment in test mode
Signal	Color bars
Test point	COMPONENT VIDEO OUT (Y) connector (75 Ω terminated)
Instrument	Oscilloscope
Specification	1.0 ± 0.1 Vp-p

Checking method:

1) Confirm that the Y level is 1.0 ± 0.1 Vp-p.

1.0 ± 0.1 Vp-p
Figure 7-5

6. Checking RGB Output R (MB-85 BOARD)

<Purpose>

This checks RGB output R. If it is incorrect, pictures will not be displayed correctly in spite of connection to the TV with an EURO AV connecting cord.

Mode	In test mode, Push ⓪ for Syscon Diagnosis and push ⑦ for Video and push ⑤ for RGB out
Signal	Color bars
Test point	EURO AV 1 (RGB)-TV connector pin ⑮ (75 Ω terminated)
Instrument	Oscilloscope
Specification	700 ± 70 mVp-p

Checking method:

1) Confirm that the R level is 700 ± 70 mVp-p.

700 ± 70 mVp-p
Figure 7-6

7. Checking RGB Output G (MB-85 BOARD)

<Purpose>

This checks RGB output G. If it is incorrect, pictures will not be displayed correctly in spite of connection to the TV with an EURO AV connecting cord.

Mode	In test mode, Push ⓪ for Syscon Diagnosis and push ⑦ for Video and push ⑤ for RGB out
Signal	Color bars
Test point	EURO AV 1 (RGB)-TV connector pin ⑪ (75 Ω terminated)
Instrument	Oscilloscope
Specification	700 ± 70 mVp-p

Checking method:

1) Confirm that the G level is 700 ± 70 mVp-p.

700 ± 70 mVp-p
Figure 7-7

8. Checking RGB Output B (MB-85 BOARD)

<Purpose>

This checks RGB output B. If it is incorrect, pictures will not be displayed correctly in spite of connection to the TV with an EURO AV connecting cord.

Mode	In test mode, Push ⓪ for Syscon Diagnosis and push ⑦ for Video and push ⑤ for RGB out
Signal	Color bars
Test point	EURO AV 1 (RGB)-TV connector pin ⑦ (75 Ω terminated)
Instrument	Oscilloscope
Specification	700 ± 70 mVp-p

Checking method:

1) Confirm that the B level is 700 ± 70 mVp-p.

700 ± 70 mVp-p

Figure 7-8

9. Checking S Video Output S-C (MB-85 BOARD)

<Purpose>

This checks whether the S-C satisfies the NTSC Standard. If it is not correct, the colors will be too dark or light.

Mode	Video level adjustment in test mode
Signal	Color bars
Test point	S VIDEO OUT (S-C) connector (75 Ω terminated)
Instrument	Oscilloscope
Specification	286 ± 50 mVp-p (NTSC) 300 ± 100 mVp-p (PAL)

Checking method:

1) In the test mode initial menu "6" Video Level Adjustment, set so that color bars are generated.
2) Confirm that the S-C burst is 300 ± 100 mVp-p.

300 ± 100 mVp-p

Figure 7-9

REPAIR PARTS LIST

8-1. EXPLODED VIEWS

NOTE:
• -XX and -X mean standardized parts, so they may have some difference from the original one.
• Items marked "*" are not stocked since they are seldom required for routine service. Some delay should be anticipated when ordering these items.

• The mechanical parts with no reference number in the exploded views are not supplied.
• Hardware (# mark) list and accessories and packing materials are given in the last of the electrical parts list.

The components identified by mark ⚠ or dotted line with mark ⚠ are critical for safety.
Replace only with part number specified.

8-2. ELECTRICAL PARTS LIST

NOTE:
- Due to standardization, replacements in the parts list may be different from the parts specified in the diagrams or the components used on the set.
- -XX and -X mean standardized parts, so they may have some difference from the original one.
- RESISTORS
  All resistors are in ohms.
  METAL: Metal-film resistor.
  METAL OXIDE: Metal oxide-film resistor.
  F: nonflammable
- Not all of the parts for POWER BLOCK (HS-030SH) are listed.

- Items marked "*" are not stocked since they are seldom required for routine service. Some delay should be anticipated when ordering these items.
- SEMICONDUCTORS
  In each case, u: μ, for example:
  uA. . : μA. .   uPA. .   : μPA. .
  uPB. .   : μPB. . uPC. .   : μPC. .
  uPD. .   : μPD. .
- CAPACITORS
  uF: μF
- COILS
  uH: μH

The components identified by mark ⚠ or dotted line with mark ⚠ are critical for safety.
Replace only with part number specified.

When indicating parts by reference number, please include the board.
